MY STORY

SHINGIRIRAI SAVIOUS MUTANGA, STUDIED IN THE NETHERLANDS, POLAND, SWEDEN AND THE UNITED KINGDOM

"Being awarded the prestigious Erasmus Mundus scholarship to study on the Master of Science course in Geo-Information Science and Earth Observation for Environmental Modelling and Management was one of the greatest experiences in my career and served as a springboard in honing my skills in the area of environmental modelling and management. Learning at several world-class universities in Europe across four national boundaries with students from different nationalities was an enriching experience. Apart from the multi-cultural experience, I cherish the incredible academic adventure and the way in which this has advanced my professional, academic and life skills. I highly recommend this programme to prospective candidates from Zimbabwe and Africa."
