Koen Desimpelaere teamleader EIP-AGRI Service Point

funded by

EIP-AGRI

The EIP must **bridge the gap** between research and farming practice
focussing on real, existing issues and research needs from the 'field'

and

involve all innovative actors

EIP-AGRI Method

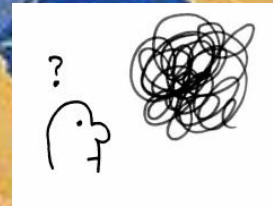

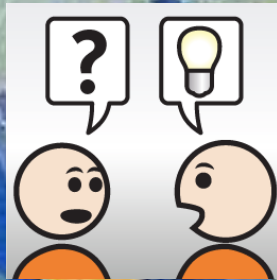

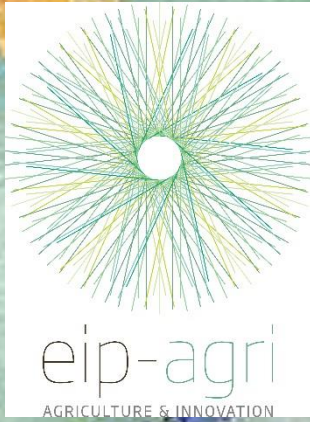

- It acts based on an “**interactive innovation model**”:
 - Focus on forming partnerships
 - Uses bottom-up approaches
 - Links farmers, researchers, advisors, businesses, NGOs and other actors in a network ➡ The EIP Network

EIP-AGRI Service Point

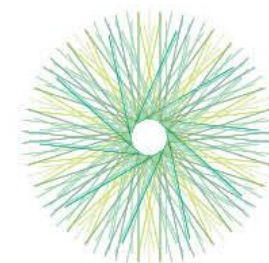

The EIP-AGRI Service Point acts as a mediator within the EIP Network, enhancing communication and cooperation between all innovation actors, including farmers, advisors, agri-business, civil society, and researchers, working at EU, national and regional level.

EIP-AGRI Service Point

- Established in April 2013 by DG Agri
- Based in Brussels
- Multidisciplinary team

Focus group concept

- A temporary group of selected experts
- Focusing on a specific subject
- The tangible output is focused on practical knowledge and where to get that knowledge as well as ideas for operational group projects
- Charter on the way of working

Focus groups objectives

- to take stock of the state of the art of practice
- to take stock of the state of the art of research
- to identify needs from practice and propose directions for further research
- to propose priorities for innovative actions by suggesting potential practical operational groups or other project formats to test solutions and opportunities, including ways to disseminate the practical knowledge gathered

Focus groups topics

- 3 focus groups started
 - Yields in organic farming
 - Protein crops
 - Reduction of antibiotic use in pig farms
- 3 focus groups in preparation
 - Cooperation models in genetic resources
 - Organic matter in Mediterranean soils
 - IPM in Brassica
