Project name: RESEARCH STUDY

'UNDERSTANDING POVERTY IN MALTA: A SERVICE PROVIDERS' PERSPECTIVE'

The main objective of this research study is to identify and analyse situations of poverty and exclusion, from the perspective of local social welfare service providers (including both governmental entities and voluntary organisations). The results of the research, which will be published in both hard and soft copy formats, are envisaged to be disseminated during the National Closure Event of the EY2010. The research will thus serve as a legacy of the EY2010, whilst providing the basis for the development of evidence-based policies in line with the EU2020 strategy.
