## **1. Introduction**

The Social Agenda (2005-2010) has fixed as its overall strategic goal to promote more and better jobs and to offer equal opportunities for all. The realisation of the Social Agenda relies on a combination of instruments comprising EU legislation, the implementation of open methods of coordination in various policy fields and financial incentives such as the European Social Fund.

The Decision n°1672/2006 establishing a Community programme for employment and social solidarity – PROGRESS was adopted by the European Parliament and the Council on 24 October 2006 and published in the OJ on 15 November 2006.

PROGRESSSS aims at supporting the core functions of the European Community towards fulfilling its Treaty-delegated tasks and powers in its respective areas of competence in the employment and social sphere. PROGRESS mission is to strengthen the EU contribution in support of Member States' commitments and efforts to create more and better jobs and to build a more cohesive society. To that effect, PROGRESS will be instrumental in:

- providing analysis and policy advice on PROGRESS policy areas;
- monitoring and reporting on the implementation of EU legislation and policies in PROGRESS policy areas;
- promoting policy transfer, learning and support among Member States on EU objectives and priorities; and
- relaying the views of the stakeholders and society at large.

More specifically, PROGRESS will support:

1. the implementation of the European Employment Strategy (section 1);
2. the implementation of the open method of coordination in the field of social protection and inclusion (section 2);
3. the improvement of the working environment and conditions including health and safety at work and reconciling work and family life (section 3);
4. the effective implementation of the principle of non-discrimination and promotion of its mainstreaming in all EU policies (section 4);
5. the effective implementation of the principle of gender equality and promotion of its mainstreaming in all EU policies (section 5).

The present Call for proposals is issued in the context of the implementation of the 2008 annual plan of work for PROGRESS which is consultable at [http://ec.europa.eu/employment\\_social/progress/annwork\\_en.htm](http://ec.europa.eu/employment_social/progress/annwork_en.htm)

## **2. Context**

Over the years, various initiatives have been undertaken through the Structural Funds (ERDF, ESF – EQUAL, and LEADER, for example) to encourage attention to be given to local development<sup>1</sup>. In addition, DG EMPL financed (separately from Structural Funds) a local employment development awareness-raising project (IDELE) and a study on the situation in the new Member States, both of which finished at the end of 2006. The Commission is implementing a co-financed convention for 2006-2008 with the OECD. A project involving creation of a website to encourage interactive sharing of best practice (Linking Local Actors), and one involving the preparation of a handbook on LED for each of the new Member States (EU12) ended at the beginning of 2008.

## **3. Objective of the call for proposal**

### Objective

The objective is to identify and share good practices in the field of LED and to provide inputs for the development of future local and regional strategies. This concerns areas like:

- Knowledge acquisition for better implementation of Structural Funds at the local level, particularly involving exchange of best practice between Member States. A holistic approach involving all stakeholders will be looked for.
- To generate innovative ideas for turning the perceived disadvantage of delocalisation into long-term aspirations of greater local prosperity.

---

<sup>1</sup> [http://ec.europa.eu/employment\\_social/local\\_employment/index\\_en.htm](http://ec.europa.eu/employment_social/local_employment/index_en.htm)

- To facilitate knowledge acquisition and transfer in the implication for local development of the emerging issues of inclusion, migrants, ethnic minorities, demographic change, and/or youth.

### Geographical coverage

The proposals should focus on the sharing LED practices as experienced in one Member State with as least two other Member States. Proposals should envisage cooperation between the local/regional level and national authorities. It is hoped that the call would attract public authorities and agencies with decision-making competences to apply, in combination with a variety of stakeholders as partners, whether they be other public authorities, private enterprise, business organisations, chambers of commerce, trade unions, NGOs, or other community groups.

### Scope

As the Lisbon strategy is advancing towards the target year 2010, fresh challenges are emerging for employment development in local communities. The inclusion of certain disadvantaged groups including migrants and ethnic minorities is an issue that faces local communities before it reaches the regional, national, or European levels. Demographic change means that local communities have to make provision for an ageing workforce. Youth employment remains a challenge, and innovative local communities have an opportunity to provide original input in this area.

Local communities can experience detrimental economic and employment effects due to delocalisation of activities outside their area. There is a need for stakeholders from different localities to join together in new forms of governance and share best practice on the best ways to deal proactively with delocalisation. An agenda of anticipating change needs to be established whereby stakeholders consider up-front strategies for long-term growth, including attention to lifelong learning and training, encouraging an environment conducive to investment, and improving local research and development capacity. Some groups like young and older people but also migrants and ethnic minorities have more difficulties entering and or remaining in the labour market. In developing a local agenda for change these groups might require special attention.

This call for proposals is relevant for the new Member States (EU12) in order to foster genuine locally-generated employment strategies and initiatives and regions within the older Member States who could benefit from this call also, and/or who may be willing to exchange experiences with other MS.

## **4. Total available budget**
