

Check your project idea with the EACI!

Should you want to check if your idea is addressed by this year's priorities, or to confirm which key action is most appropriate, you can submit a short outline: maximum 1-2 pages, indicating the key action and priority you have in mind. The key actions and priorities are clearly specified in the Call for Proposals 2012.

Please be aware that to ensure fair and equal treatment of all proposers the EACI has to limit its advisory role. Only general guidance will be provided. Specific hints, ideas on how to make a proposal better or recommendations for possible partners cannot be given.

Outlines should be sent to eaci-iee-enquiries@ec.europa.eu **until 30 March 2012** - outlines coming in after this date will not be processed.

The subject of your e-mail should indicate:

- The number of the key action (see the Table of Contents on page 2 of the Call for Proposals 2012 http://ec.europa.eu/energy/intelligent/files/call_for_proposals/call_2012_en.pdf)
- An easily identifiable short title of your idea.

To make the most of this facility, please submit your enquiry as soon as possible!
