LOCATION

Hostalrich (ES) – Barbaira (FR)

COMMISSIONING DATE

31/12/2022

Source: PLATTS, GISCO, European Commission

Technical description

On the Spanish side, the project consists of a pipeline between Hostalrich and Figueras (79 km, 36"/900 mm), a pipeline between Figueras and the French border (28 km, 36"/900 mm) and a compressor station in Martorell (36 MW).
On the French side, the project consists of a pipeline between Barbaira and the Spanish border (120 km, 36"/900 mm), two connections with the existing pipe and the adaptation of the Barbaira compression station piping.

CEF funding

5.5-0048-FR-S-M-15: Awarded CEF co-funding: 4,150,000 EUR
