**Swedish biofuel target for 2005**

Dear Mr. Hodson,

In a previous letter to Mr. Lamoureux, we reported that the proposal of the Swedish government for an indicative national target for biofuels for 2005 was presented to Parliament in the Budget Bill for 2005.

I can now inform you that the energy part of the Budget Bill for 2005 has been passed by Parliament, and the Swedish goal of 3% biofuels for 2005 has been established.

The details of the Parliamentary decision, giving the identity of the relevant documents and protocols, are given as prop. 2004/05:1, utg.omr. 21, bet. 2004/05:NU3, rskr. 2004/05:120.

Yours sincerely,

Lars Guldbrand
