2. THE PROGRAMME

2.1. Introduction

The purpose of this programme is to financially support – through the 2009 funds of the IPA Cross-border Co-operation component – the participation of Albania in the ERDF transnational programmes "South-East Europe" and "Mediterranean" under the European Territorial Co-operation objective of the Structural Funds 2007–2013.

The establishment and development of transnational co-operation is one of the priorities of the European Territorial Co-operation objective of the Structural Funds 2007–2013. To this aim, the EU territory has been partitioned in several homogeneous spaces and the relevant Member States have been invited to submit a transnational co-operation operational programme – financed by the European Regional Development Fund (ERDF) – for the given space.

Considering their geographical inclusion in two of these homogeneous spaces – South-East Europe and Mediterranean – the candidate/potential candidate countries have been invited to participate in the relevant operational programmes. Hungary (South–East Europe) and France (Mediterranean) are home of the Managing Authorities of the ERDF programmes.

The responsible authorities of Albania have accepted the invitation and decided to take part in the "South–East Europe" programme (as of 2007) and in the "Mediterranean" programme (as of 2009) with the financial support of the IPA Cross-border Co-operation component for the year 2009.

The entire territory of Albania is eligible to the "South–East Europe" and the "Mediterranean" programmes.

2.2. Objective of the programme

The objective of this programme is twofold:

- to support the participation of partners from candidate/potential candidate countries in joint transnational co-operation activities with partners from EU Member States;
- to familiarise candidate/potential candidate countries with territorial co-operation programmes under the EU Structural Funds in view of their implementation upon accession.

2.3. Priority axis

The ERDF "South–East Europe" and "Mediterranean" programmes aim at the establishment and development of transnational co-operation through the financing of networks and of actions conducive to integrated territorial development, concentrating primarily on the following areas:

- (a) innovation: the creation and development of scientific and technological networks, and the enhancement of regional R&TD and innovation capacities, where these make a direct contribution to the balanced economic development of transnational areas. Actions may include: the establishment of networks between appropriate tertiary education and research institutions and SMEs; links to improve access to scientific knowledge and technology transfer between R&TD facilities and international centres of RTD excellence; twinning of technology transfer institutions; and development of joint financial engineering instruments directed at supporting R&TD in SMEs;
- (b) environment: water management, energy efficiency, risk prevention and environmental protection activities with a clear transnational dimension. Actions may include: protection and management of river basins, coastal zones, marine resources, water services and wetlands; fire, drought and flood prevention; the promotion of maritime security and protection against natural and technological

risks; and protection and enhancement of the natural heritage in support of socio-economic development and sustainable tourism;

- (c) accessibility: activities to improve access to and quality of transport and telecommunications services where these have a clear transnational dimension. Actions may include: investments in cross-border sections of trans-European networks; improved local and regional access to national and transnational networks; enhanced interoperability of national and regional systems; and promotion of advanced information and communication technologies;
- (d) sustainable urban development: strengthening polycentric development at transnational, national and regional level, with a clear transnational impact. Actions may include: the creation and improvement of urban networks and urban-rural links; strategies to tackle common urban-rural issues; preservation and promotion of the cultural heritage, and the strategic integration of development zones on a transnational basis improving the environmental situation through an integrated approach.

The priorities should be essentially implemented through single calls for proposals covering all the eligible territory, including that of the participating candidate/potential candidate countries.

The essential selection and award criteria to be used to select the proposal are laid down in the relevant ERDF transnational programme. The detailed selection and award criteria for the award of grants will be laid down in the call for proposals–application pack (Guidelines for applicants).

Up to 10% of IPA funds allocated to Albania for its participation in the "South–East Europe" and "Mediterranean" programmes can be used to co–finance (up to 85% of the eligible expenditure) the operational and administrative costs incurred by the national authorities in the implementation of the programme.

These may include, *inter alia*, the following costs:

- support to the Operating Structure;
- expenses for participation in different meetings related to the implementation of the programme;
- costs related to the participation of national staff in the Joint Technical Secretariat, with the exclusion of salaries of public officials, and to the establishment, as appropriate, of national antennae of JTS or info points;
- Administrative and operational costs, including the costs of preparation, monitoring and evaluation of the programme, support to projects preparation, appraisal and selection of operations, the organisation of meetings related to the programme, translation, information and publicity costs.

The main aim of the IPA contribution to this expenditure is to facilitate an effective and efficient administration and implementation of this programme in Albania.

The main beneficiaries of the TA funds would be the Operating Structure, the Joint Technical Secretariat (main and JTS antenna or info point), any other structures/bodies related to development and implementation of this programme, and the programme beneficiaries.

Considering that the relevant national authorities (Operating structures or CBC Coordinator – within the meaning of Art. 22(2)(b) of the IPA Implementing Regulation) enjoy a *de facto* monopoly situation (within the meaning of Article 168, paragraph 1, sub-paragraph c of the Implementing Rules to the Financial Regulation) for managing the Albania's participation in the "South-East Europe" and the "Mediterranean" programmes, a direct grant agreement without a call for proposals for the Technical Assistance's amount specified in the Financial table in Section 3.1, shall be concluded between the Commission (EC Delegation) and the relevant national authorities. This direct grant agreement can be signed as soon as the Financing Agreement concerning this programme has been concluded. Activities covered by the direct grant agreement (e.g. TA, evaluation, publicity, etc.) can be procured further by the grantee in accordance with Article 120 of the Financial Regulation¹ and Article 184 of the Implementing Rules² to the Financial Regulation.

2.4. Overview of past and on-going experience in transnational co-operation, including lessons learned

In 2004–06, CARDS funds financed the participation of Western Balkan countries in the Neighbourhood programme Central, Adriatic, Danubian and South-Eastern European Space (CADSES), one of the given 2000–2006 European transnational co-operation areas covered by the INTERREG IIIB initiative. The participation in the CADSES programme, the precursor of the 2007–13 "South-East Europe" programme, provided the first opportunity to Western Balkan countries to get involved in transnational co-operation with EU Member States and, by the same occasion, to get familiar with the procedures of INTERREG programmes.

As the CADSES programme was implemented through single joint calls for proposals, the lessons learned for the participating candidate/potential candidate countries are as follows:

- national authorities have to allocate enough human resources to take active part in the management structures of the programme (joint monitoring committee, joint steering/evaluation committee, joint technical secretariat) and to follow up the implementation of the programme/projects in the country concerned. A small fraction of Community funds allocated to each candidate/potential candidate country shall be available to cover the operational costs linked with the implementation of the programme;
- effective co-ordination between EC Delegations of participating candidate/potential candidate countries (e.g. in performing *ex-ante* approval of the single calls for proposals prior to their publication) and between them and the Managing Authority, is key to ensure a smooth and timely implementation of the programme.

2.6. Roadmap for the decentralisation of the management of EU funds without ex ante controls by the Commission

According to Article 8(4)c) of the IPA Implementing Regulation, the beneficiary countries shall establish a roadmap with indicative benchmarks and time limits to achieve decentralisation without ex ante controls by the Commission.

In **Albania**, the Council of Ministers adopted in September 2007 a Decision on setting up the structures, authorities and responsibilities for IPA implementation under Decentralised Implementation System (DIS). In November 2007, the Ministry of Finance transmitted a proposal for the functioning of the Central Financing and Contracting Unit (CFCU) to DG Elarg which provided comments and advice on this draft proposal. A Technical Assistance project under IPA 2007 has started. The service contract is expected to be concluded by 19 December 2008, with a start date of activities on 15 January 2009. The indicative planning of activities proposed by the contracted consultant may be divided in 2 phases: in the first phase, of 1 year duration, the consultant will support the Albanian authorities in reviewing, preparing and developing all the actions required to successfully complete stages 1 and 2 above; in the second phase, of a six-month duration, the consultant will both test the structures developed and their compliance with the IPA DIS requirements, and deliver training

4. IMPLEMENTATION ARRANGEMENTS

4.1. Introduction

This programme provides Albania with IPA component II funds to finance the participation of its national partners in joint transnational co-operation projects under the ERDF transnational programmes "South-East Europe" and "Mediterranean".

Main steps of the implementation will be as follows:

- (a) Responsible authorities of Albania shall establish an Operating Structure to deal with the management and implementation of this programme. The Operating Structure will co-operate with the Managing Authority of the "South-East Europe" and "Mediterranean" programmes and will be represented in the Joint Monitoring Committee of the above transnational programmes as a full member.
- (b) The Joint Monitoring Committee of the above transnational programmes will prepare the Calls for proposals–Application packs (Guidelines for applicants) for the implementation of the programmes.

- (c) Before being published, the Calls for proposals notice and their Application packs shall be submitted to the EC Delegations of the candidate/potential candidate countries participating in the transnational programme, for ex-ante approval.
- (d) To be eligible for financing by IPA, joint operations shall include beneficiaries from both Member States and IPA countries. Applications for joint operations shall identify a financial lead partner located in a Member State for the part of the joint operation taking place on the EU side with ERDF funds, and a financial lead partner in each of the participating candidate/potential candidate country for the part of the joint operation taking place on the candidate/potential candidate side with IPA funds. Applications must clearly distinguish between activities – and their costs – taking place on the EU side with ERDF funds and those taking place on the candidate/potential candidate side with IPA funds.
- (e) The Joint Monitoring Committee of the above transnational programmes is responsible for selecting joint operations in accordance with Structural Funds rules.
- (f) The evaluation report and the list of joint operations selected for financing shall be submitted to the EC Delegations for approval. This approval will concern only the participation of partners from Albania in the relevant joint operations.
- (g) The EC Delegation of Albania will issue the IPA grants to the national lead partners participating in the selected joint operations (while the Managing Authority of the "South-East Europe" or the "Mediterranean" programme will issue the ERDF grants to the lead partners responsible for the part of the joint operations taking place on the EU territory).

4.2. Method of Implementation

This programme shall be implemented on a centralised basis by the European Commission in accordance with Article 53a of the Financial Regulation³ and the corresponding provisions of the Implementing Rules⁴.

In the event of centralised management, the Commission shall:

- approve the Calls for proposals and their Application packs (Guidelines for applicants) drawn by the joint management structures of the "South-East Europe" and "Mediterranean" ERDF transnational programmes prior to their publication;
- formally confirm the operations selected by the joint management structures of the "South-East Europe" and "Mediterranean" ERDF transnational programmes as far as the participation of a beneficiary of Albania is concerned;
- retain, in all cases, the right to issue a grant to the lead beneficiary of Albania participating in a joint operation.

4.3. General rules for Procurement and grant award procedures

Procurement shall follow the provisions of Part Two, Title IV of the Financial Regulation and Part Two, Title III, Chapter 3 of its Implementing Rules⁵ as well as the rules and procedures

for service, supply and works contracts financed from the general budget of the European Communities for the purposes of cooperation with third countries adopted by the Commission on 24 May 2007 (C(2007)2034).

Grant award procedures shall follow the provisions of Part One, Title VI of the Financial Regulation and Part One, Title VI of its Implementing Rules.

Where appropriate, the Contracting Authorities shall also use the standard templates and models facilitating the application of the above rules provided for in the Practical Guide to contract procedures for EC external actions (Practical Guide) as published on the EuropeAid website⁶ at the date of the initiation of the procurement or grant award procedure.

4.4. Environmental Impact Assessment and Nature Conservation

All investments shall be carried out in compliance with the relevant Community environmental legislation.

The procedures for environmental impact assessment as set down in the EIA-directive⁷ fully apply to all investment projects under IPA. If the EIA-directive has not yet been fully transposed, the procedures should be similar to the ones established in the above-mentioned directive.

If a project is likely to affect sites of nature conservation importance, a nature conservation assessment shall be made through a procedure equivalent to that provided for in Article 6 of the Habitats Directive⁸.

5. MONITORING AND EVALUATION

5.1. Monitoring

In Albania, the Commission may undertake any actions it deems necessary to monitor the programmes concerned.

5.2. Evaluation

The ERDF transnational programmes are subject to evaluation according to the Structural Funds Regulation (EC) No 1083/2006, under the responsibility of the Managing Authority located in one of the participating Member States. When such an evaluation is conducted, every effort should be made to evaluate also the elements concerning the participation of candidate/potential candidate countries in the transnational programme.

This programme shall be subject to evaluations in accordance with Articles 57 and 82 of the IPA Implementing Regulation, with an aim to improve the quality, effectiveness and consistency of the assistance from Community funds and the strategy and implementation of the programme.

The Commission may also carry out strategic evaluations.

This includes measures such as ex-ante verification of tendering and contracting carried out by the Delegations in the Beneficiary Countries.
