COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 6.11.2007
COM(2007) 658 final

Proposal for a

COUNCIL DECISION

**on the principles, priorities and conditions contained in the Accession Partnership with
Croatia and repealing Decision 2006/145/EC**

(presented by the Commission)

EXPLANATORY MEMORANDUM

The Thessaloniki European Council of 19 and 20 June 2003 endorsed the "Thessaloniki Agenda for the Western Balkans", which introduced the partnerships as a means of realising the European perspective of the Western Balkan countries.

On 20 February 2006, the Council adopted the revised Accession Partnership for Croatia, based on the Commission's proposal presented on 9 November 2005. This partnership contained short-term and medium-term priorities. The countries are expected to fulfil the short-term priorities in one to two years.

Therefore the Commission considers it appropriate to present a proposal for an updated partnership for Croatia. This renewed partnership is based on the provisions of Council Regulation (EC) No 533/2004 of 22 March 2004 and takes into account the new developments as described in the 2007 Progress Report. The priorities listed in this partnership have been selected on the basis that it is realistic to expect Croatia to be able to complete them or bring them substantially forward over the next few years.

In order to respond to the Accession Partnership, the competent authorities in Croatia should develop a plan with a timetable and the specified measures Croatia intends to take to this end. The Commission will regularly monitor progress in implementing the priorities.

The Accession Partnership priorities form the basis for programming the financial assistance of the Community, which will continue to be provided under the relevant financial instruments, in particular Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing the Instrument for Pre-Accession Assistance (IPA).

The proposed Council Decision has no financial implications. In view of the above, the Commission invites the Council to adopt the attached proposal for a Council Decision.

Proposal for a
COUNCIL DECISION

on the principles, priorities and conditions contained in the Accession Partnership with Croatia and repealing Decision 2006/145/EC

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 533/2004 of 22 March 2004 on the establishment of partnerships in the framework of the Stabilisation and Association Process¹, as amended, and in particular Article 2 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) The Thessaloniki European Council of 19 and 20 June 2003 endorsed the introduction of the partnerships as a means to materialise the European perspective of the Western Balkan countries.
- (2) Regulation (EC) No 533/2004 provides that the Council is to decide on the principles, priorities and conditions to be contained in the partnerships, as well as any subsequent adjustments. It also states that the follow-up to the Accession Partnerships will be ensured through the mechanisms established under the Stabilisation and Association Process, notably by the annual progress reports.

- (4) On 3 October 2005 the Member States started negotiations with Croatia on its accession to the European Union. The advancement of the negotiations will be guided by Croatia's progress in preparing for accession, which will be measured, inter alia, against the implementation of the Accession Partnership, as regularly revised.
- (5) The Commission's Paper on enlargement strategy and main challenges 2006–2007 indicated that the partnerships would be updated at the end of 2007.

¹ OJ L 86, 24.3.2004, p. 1. Regulation as last amended by Regulation (EC) No 269/2006 (OJ L 47, 17.2.2006, p. 7.)

- (6) On 12 June 2006 the Council adopted Regulation (EC) No 1085/2006 establishing an instrument for pre-accession assistance (IPA)³, which renews the framework for financial assistance to pre-accession countries.
- (7) It is therefore appropriate to adopt a revised Accession Partnership which updates the current partnership in order to identify renewed priorities for further work, on the basis of the findings of the 2007 Progress Report on Croatia's preparations for further integration with the European Union.
- (8) In order to prepare for membership, Croatia is expected to develop a plan with a timetable and specific measures to address the priorities of this Accession Partnership.

ANNEX : CROATIA 2007 ACCESSION PARTNERSHIP

1. INTRODUCTION

The proposed revised Accession Partnership updates the first one, on the basis of the findings of the 2007 Commission's Progress Report on Croatia. It identifies new as well as remaining priorities for action. The new priorities are adapted to the country's specific needs and stage of preparation and will be updated as necessary. Croatia is expected to develop a plan including a timetable and specific measures intended to address the Accession Partnership priorities. The Accession Partnership also provides guidance for financial assistance to the country.

2. PRINCIPLES

The Stabilisation and Association Process remains the framework for the European course of the Western Balkan countries, all the way to their future accession. The main priorities identified for Croatia relate to its capacity to meet the criteria defined by the Copenhagen European Council of 1993 and the conditions set for the Stabilisation and Association Process, notably the conditions defined by the Council in its Conclusions of 29 April 1997 and of 21 and 22 June 1999, the final declaration of the Zagreb Summit of 24 November 2000 and the Thessaloniki Agenda, and the requirements of the negotiating framework adopted by the Council on 3 October 2005.

3. PRIORITIES

The priorities listed in this Accession Partnership have been selected on the basis that it is realistic to expect that Croatia can complete them or take them substantially forward over the next few years. The priorities concern both legislation and the implementation thereof.

In view of the need to set priorities, it is clear that there are other tasks for Croatia to complete which may become priorities in any future partnership, also taking into account future progress made by Croatia.

Among the priorities, the key priorities have been identified and grouped together at the beginning of the section below. The order of these key priorities does not imply a ranking of their importance.

Key priorities

- Ensure proper implementation of all commitments undertaken in the Stabilisation and Association Agreement.
- Update and implement the strategy and action plan for judicial reform; step up public administration reform.
- Update and implement the anti-corruption programme and related action plans and ensure more coordinated and pro-active efforts to prevent, detect and prosecute corruption, especially at high level.
