1	E. Maier (citizen)	DE	Regulation (EC) 1166/2008	The stakeholder complains about high administrative burdens for respondents of the agricultural census 2010.	Simplified form.	AGRI ESTAT
2	MEP Hohlmeier	DE	Regulation (EC) 510/2006	Registration procedures for obtaining EU protection of geographical indications and designations of origin for agricultural and other food products are complicated and take several years.	Examination of procedures and development of proposals to simplify and accelerate these procedures.	AGRI
3	MP Gunther Krichbaum	DE	European Voluntary Service (EVS) and the Youth in Action (YiA) Programme	The application procedures for the EVS and the YiA programme are too complex.	Simplification of the procedures. They need to be more transparent, accountable, as well as user friendly.	EAC
4	Lehmann & Voss & Co. (chemical company)	DE	REACH - Regulation (EC) No 1907/2006	Numerous references, documents or forms related to REACH are only available in English, which uses up resources for non-native speakers. This applies to REACH-IT system in particular.	The respective translations should be provided.	ENV and ENTR
5	German Retail Federation	DE	REACH - Regulation (EC) No 1907/2007	Article 7 and 33 of REACH: Stakeholder objects to the proposal by a group of member states for the 0.1% concentration threshold of article 33 to be redefined. This would mean that the information flow in all supply chains would risk becoming unworkable and cause an information overload.	Member states should continue with the the 0.1% threshold, as identified by the legal services of the Commission, and should comply with this interpretation at least until the next revision of REACH.	ENV and ENTR
6	Hamburg State Government	DE	REACH - Regulation (EC) No 1907/2008	The stakeholder complains about heavy administrative constraints and high costs for businesses caused by REACH, which could lead to overwhelming burdens above all for small- and medium-sized businesses.	a) Reduce registration fees and provide better advice for small- and medium-sized businesses, b) Extend the first transitional period for registering "phase-in" substances by at least a year, in order to reflect the delayed presentation of the registration tools by ECHA, c) Impose a general exemption from the REACH registration requirement for substances which are already subject to other, stricter regimes.	ENV and ENTR
7	CEFC	EU	REACH - Regulation (EC) No 1907/2009	Lack of consistency between REACH and other legislation. E.g. the Toys directive introduced another substitutions system to the REACH authorisation and restriction system.	Ensure greater consistency between pieces of legislation.	ENV and ENTR
8	CEFC	EU	REACH - Regulation (EC) No 1907/2010	New requirements seldom replace earlier ones.	Reviews should go beyond a single piece of legislation, but a 'cluster' of related ones.	ENV and ENTR
9	CEFC	EU	REACH - Regulation (EC) No 1907/2011	Lack of harmonization on inspection is unfavourable to the chemical industry. Lack of uniformity in applying definitions and guidelines.	Ex-post evaluation should be systematic and legislation that cannot be or is not well implemented should be revised.	ENV and ENTR
10	Meeting with FEAD/FEGE	EU	Waste Shipment Regulation (EC) No 1013/2006	Article 14(2) provides for the possibility of a 3 year extension of the period of validity of the consent in cases of general notification. Yet, regional authorities do not always make use of this.	Regional authorities should use this possibility.	ENV
11	Union Pétrolière Européenne Indépendante (UPEI-organisation)	EU	Fuels Quality Directive 2009/30/EC	Article 7a: Reporting additional data through the whole supply chain adds no value, it only creates a greater burden for SMEs. Data is not available from refineries or from foreign suppliers.	Remove the obligation to provide information that does not create added value and is not easily accessible.	CLIMA
12	Industrieverband Haus-, Heiz und Küchentechnik e.V. (HKI-association)	DE	Battery Directive 2006/66/EC	The transportation, trade and collection of batteries requires procedures for registration and notification, which differ among Member States, this leads to added red-tape.	A central registration body should be set-up at the EU level.	ENV
13	Industrieverband Haus-, Heiz und Küchentechnik e.V. (HKI-association)	DE	Ecodesign Directive 2009/125/EC	The differences found between the private and commercial use for ovens/grills ("lots" 22 and 23) in particular. Geometrical sizes, usage, frequency, construction and purchase prices justify different treatment.	Directive should differentiate between devices for personal/private and commercial use.	ENER and ENTR

Nr	Author of suggestion	MS	Relevant regulation	Problem description	Solution	Responsible DG
14	Arbeitsgemeinschaft für wirtschaftliche Verwaltung e.V. (AWV-association)	DE	Single Euro Payments Area - Directive 2007/64/EC and Regulation (EC) No 924/2009	Suggestions for AB limitation regarding a position paper on the scope of the possible administrative burdens related to the transfer of national direct debit procedures to the SEPA direct debit procedures.	Efficient and user-driven transformation of the national system to the European SEPA Direct Debit system	MARKT
15	R. Karwecki (citizen)	DE	EC Regulation (EU) No 388/2010	Travelling in Europe with pet animals: Requirements for huskies/dogs are disproportionate, animals are checked at sports events anyway.	Husky/sled dog sportsmen should be exempted.	SANCO
16	MEP Dr. Rübzig	AT	Directives: 1985/577/EEC, 1993/13/EEC, 1997/7/EC	A proposed directive on consumer rights (COM/2010/614) overlaps with the 'services' and e-commerce directives in particular.	More clarity and consistency among the directives.	JUST
17	F. Schwarz (citizen)	DE	Vehicle registration directive (1999/37/EC)	Failure to recognize car registration documents that were issued in another member state leads to demand for type approval request and demand for an expert opinion.	Strengthen mutual recognition.	ENTR
18	B. Beck, Mayor of German town (local authority)	DE	Services Directive 2006/123/EC	Administration costs caused by adaptations of local regulations to the services directive lead to disproportionate costs.	Better adapt the Services Directive to the needs of small municipalities	MARKT
19	Bundesvereinigung der Kommunale Spitzenverbände	DE	Services Directive 2006/123/EC	The directive requires a notification of future service-policy related changes of local regulations. German States go beyond this, thereby extending the requirements so that they are disproportionate when each amendment is to be notified to the European Commission.	The information obligations in the Services Directive need to be defined in a way that reduce the reporting burdens; the implementation should not go beyond what is strictly necessary.	MARKT
20	EUCAR	EU	Research Framework Programme (FP)	Observes a number of areas where administrative burdens can be reduced.	Simplification of the FP: internal clearing mechanism for uniform rule interpretation, revision of personal cost calculation methodology, removal of obligation to open a separate interest bearing account; a single portal for the FP's administration etc.	RTD
21	KPMG (company)	UK	national legislation on EU Insurance Premium Taxes and Parafiscal Taxes (IPT)	These taxes are not harmonised across the EU. Different rules creates additional administrative costs for insurance companies.	Harmonise the content and format of different reporting obligations. E.g. filing/payment periods etc.	TAXUD
22	P. Ruff (company)	DE	Regulation (EC) 561/2006 - Tachograph	Tachographs have to be used in agricultural vehicles between 2.8 and 3.5 tonnes when driving beyond a radius of 100km. The administrative costs of using a tachograph in a company only using one vehicle are immense.	Follow the example of the craft sector and abolish this obligation.	MOVE
23	W. Kunze (citizen)	UK	EU rules on social security coordination	Citizens receiving a pension from both their country of origin as well as their country of residence face complicated administrative procedures regarding health care insurance.	Simplification of administrative requirements for pensioners' health care insurance residing abroad.	EMPL
24	MEP Dr. Rübzig	AT	Regulation (EC) No 1927/2006	Beneficiaries of the European Globalisation Adjustment Fund (EGF) must wait months or even years for their money.	Simplification and acceleration of the procedures.	EMPL
25	B. Seidl (citizen)	DE	Mutual recognition of professional qualifications, Directive 2005/36/EC	Doctors who qualified abroad, wishing to work in Germany must have their professional licenses approved by an approval authority. Translating all documents into either German or Latin creates extras costs.	Significant simplification if certain national documents were to be accepted within the entire EU.	MARKT
