

# **CONFERENCE: ENTREPRENEURSHIP EDUCATION IN EUROPE OSLO**

**Ing. Vladimír Sirotko,  
Slovak Industry Craft Federation.  
Project manager of education  
Slovak Association of Small Enterprises.**

**Graduates**, especially high schools graduates are not **properly educated** for performing their job in SME.  
Especially about:

- n *managerial knowledge,*
- n *economy and bookkeeping, accounting,*
- n *existing technology equipment in companies and international technology transfer,*
- n *conditions of new owners,*
- n *modern methods of human capital development,*
- n *partnership in international networks focused on new knowledge, production, sale, and cooperation, specially in EU area.*

**If we want to improve education process,  
we must do the following:**

- n Improve Partnership between universities and SME sector.***
- n Improve Partnership between regional government, high schools and SMEs.***
- n Enable students to achieve practical experience in small enterprises during their study.***
- n Involve successful entrepreneurs in education process for example on basis of guest speakers.***
- n Create auspicious conditions for establishing practical teaching centers at small enterprises (SME companies).***
- n Bring education closer to the real life***
