

## NUTEK

### *The Swedish Business Development Agency*

"Entrepreneurship is a dynamic and social process, where individuals privately or in co-operation identify possibilities and utilise them to transform ideas into practical and goal-oriented activities in a social, cultural or economic context."

## Entré

Entré is a regional project, working mainly with the coordination and development of new and existing projects that support and promote young enterprise, entrepreneurial skills and creativity.

A large part of the project is dedicated to education and method support for teachers and educators to the building of development networks.

Entré is founded by the ministry of industry employment and communications.
