From 1996 until today she has been involved in numerous studies, projects, trainings, researches funded by the European Union.

### **About the Company**

LCEducational is a new educational centre but our employees have more than 10 year experience in education and training. Our team is combined of accredited scientists, educators and trainers, both from Cyprus and abroad. The staff is consisted of 5 persons and 2 part - timers. Our staff has long experience and a large educational background dealing with the rehabilitation of people with special needs in the psychosocial, migrants and people of vulnerable groups of the society, mainly in the vocational area.

The LCEducational and Training Center is in close collaboration with similar training and education organizations in the European Union.

The LCEducational and Training Center aims to provide all kinds of formal and informal education and training, initial or supplementary, certifying trainees with the necessary qualifications. It is approved and co-funded by the Ministry of Commerce, Industry and Tourism.

LCE offers high quality training services, which are designed to cover the needs of businesses for a complete and thorough training in current subjects which will be able to reflect the needs of the newly formed society of knowledge and economy. These services cover the entire spectrum of diagnosis, design and implementation of a training program. More specifically, what we offer is professional educational training, both initial and supplementary, as well as planning and implementing conferences, seminars, educational programs and many other European and national projects.
