

Britt Sylvia Eckelmann
cpm architekten gmbh,
e two energy gmbh
Founder and General Manager

Sector	Architecture studio, energy supply, energy efficiency and renewable energies
Region	Berlin, Hamburg, Stuttgart and Europe
Employees	14

Nomination as an Ambassador	<p>She can be an example for other motivated women. Britt Sylvia Eckelmann started her company very young – 26 years old, straight after finishing her studies. She is successful in a male-dominated sector. She is an advocate for working in mixed teams where women and men work together on projects. She has also experience from countries where the quota of women in management is much higher (France, Norway).</p> <p>She expanded the services of the architecture office by using new innovative ideas. In her opinion the diversification into renewable energies was instrumental to the company's current success.</p> <p>She is active in the founding advisory board of the Technical University of Berlin and offers seminars at the Architects Chamber. She organises seminars and events for women in management positions on topics such as value-based management as a member of the board of the Aspen Institute.</p> <p>She is also a member of FidAR which aims to increase the number of women on company directorship boards.</p>
------------------------------------	---

About the company	<p>cpm was founded in 1999 and offers integrated architectural planning and project management services for diverse real estate needs. The studio designs interiors for apartments, shops and industrial projects in London, Berlin and Hamburg. In addition the studio also focuses on the development of modern workplace structures designed for businesses. cpm CapEx plans, budgets and coordinates capital investment in large residential settlements - 6,800 units since 2005. Britt Eckelmann particularly sees the architectural attraction of converting historic industrial and public buildings, taking energy provision and challenges into consideration.</p>
