To be ambassador means for me	<p>Rosi Raab studied journalism in Munich. She worked in various media, for example as a reporter for Bavarian Radio or as a journalist in Bavaria. She is currently the press speaker for the MP Daniela Raab. She took a step into independency on her own and has never regretted it. That is why she would like to encourage other women to do the same.</p> <p>Rosi Raab is a big fan of networking. Networking is a perfect tool for doing business and for connecting crafts companies and service companies which need to work together.</p>

About the company	<p>The PR agency was started in 2005. It focuses on press services, the organisation of press conferences, workshops about press services, interview trainings, image texts for flyers etc.</p> <p>Rosi Raab is also an owner of an agency specialising in conference room renting.</p> <p>As a board member of Women Entrepreneurs in Trade and Service Rosenheim e.V. (UHD), she started the project “Women and success” which is funded by Euroregio Inntal. Together with the Business & Professional Women's Club Tirol, a cross-border entrepreneurs' network between Bavaria and Tyrol is starting to grow. The project is co-financed by the European Regional Development Fund (ERDF).</p>
