| Sector | Private commercial Kindergarten |
| Region | Berlin |
| Employees | 13 |
| To be ambassador means for me | <p>Sabine Schieferdecker-Bach has many years of experience in the motivation and leading of people.</p> <p>She has been working independently for more than 26 years and she wants to encourage women to face up the challenges. Women are in her opinion more flexible and creative and are able to handle difficult situations better.</p> <p>She is the owner and also the director of the kindergarten.</p> |
| About the company | <p>The International Kindergarten is a private nursery school established by Ms Schieferdecker-Bach and Ms Stadsager in 1984. It cares for children between the age of two and six from various nationalities.</p> <p>It provides four English-speaking groups and one bilingual group, in which both German and English will be taught. The kindergarten is an educational institute which, through its daily teaching activities, supports the individual development of children and strengthens their confidence.</p> <p>In their individual groups children receive care and respect, and learn to develop trust and establish their first friendship in life. Individual needs are taken care of and we are always there to help children solve their problems, no matter how big or small.</p> |
