

Edita Štefanić

Technologica Ltd

Sector	Services in the field of environmental protection
Region	Croatia, Osijek
Nomination as an Ambassador	<p>Edita Štefanić is a university professor at the University of Agriculture in Osijek. She is coming from the sphere of academic entrepreneurship. Ten years ago she has founded her company with the desire to make the projects she worked on for the Ministry of Agriculture and science in a way closer to everyone, that knowledge does not end up in drawers after the completion of the project, but to make it practical and useful to everyone interested.</p> <p>The results of her 10 years of entrepreneurship are three prizes for Innovativeness in Pittsburgh, Nuremberg and London. She has also received two silver medals for innovation-related products that could be used as a botanical insecticide pyrethrum in commercial water.</p> <p>Besides all this, Edita is a wife and a mother of two children. She thinks that her example of reconciliation of private and professional life could be a good example to other women which doesn't have the courage to start their own business.</p>
About the Company	<p>Tehnologica Ltd is a company that offers services in the field of environmental protection. They are also highly specialized for monitoring and determination of allergens with the recommendations of suppression, etc.</p>
Raising awareness	<p>Edita looks forward to getting involved in the Network's campaign in Croatia.</p> <p>From personal experience of running a company, and as a university professor she thinks that her knowledge can inspire other women to start their own business.</p>
