<p>Nomination as an Ambassador</p>	<p>I started my career in the healthcare sector, but shortly I faced myself. I realized that I wanted to do something else, I wanted another profession. Thanks for my mother, who had laid down very serious and lead basics in commercial life by that time, my fortune and future was obvious. I had a go at commercial lifestyle and despite my young age I made good progress.</p> <p>In my opinion the time after the political changes in Hungary was really favourable for a good start; firstly we proceeded to buy up and export fruits and vegetables as a family business.</p> <p>Today our entrepreneurial profile is highly multiple and multidirectional. There were good times and bad times too, but one thing I have learned: there will always be problems and difficulties but I am the only person who can change my attitude about these.</p> <p>Continuous changes are needed! Past doesn't matter. I always plan and look ahead! It is always "TODAY", "HERE" and "NOW"! Keep focusing on the future!</p> <p>I think a present-day entrepreneur needs practical knowledge, personal power, which means toughness, and most of all, an entrepreneur needs to be open-minded. I can learn from everything I do and find new ways of making things better the next time.</p> <p>Continuous reformation and openness describe me and my whole enterprises, too. My principle is to be multifaced!</p>
<p>About the company</p>	<p>Currently I run some catering trade units, private lottery, transact different kinds of financial projects and credit</p>
