## Your career

After my Master in Business Law from Université de Nancy 2 (France) in 1998, I joined Wildgen, Partners in Law in which I am now a Partner. I joined our law firm in 2000 as a Junior Associate and, through hard-work and perseverance, I became Junior Partner in 2005 before being promoted Senior Partner in 2007. With the support of experienced lawyers coming from different backgrounds, I deal with matters of international scope and my expertise in areas such as Corporate Law, Investment Funds, Real Estate or Islamic Finance is renowned in Luxembourg and beyond. First female partner at WILDGEN Partners in Law, I owe my success to my passion for work, my determination and my dedication.

## Your motivations

Juggling with a family life and a career without putting one before another and managing to be fulfilled still remains a great challenge for women. Unfortunately, deserving credit for our work without consideration of sex remains a hard thing. Making female voices better heard and making women more visible are reasons why I am delighted to assume the role of Female Entrepreneurship Ambassador for Luxembourg. We know that there are still women out there who perhaps do not have the self-confidence or are uncertain of what to do. It is part of an Ambassador's role to convince these women that they can be successful too!
