### Nomination as an ambassador

Creating value for society was the main motivation for integration into the European Network of Female Entrepreneurship.

Being entrepreneurial means being motivated by self-fulfillment, the desire to take responsibility and be independent, and be passionate about what he does. Improve skills and enhance the less developed stronger, the way to realize change and deals with the opportunities and an initiative to generate new business, taking calculated risks, always creating value for society, are pillars of this entrepreneurial activity. Personality traits, attitudes and behaviors contribute to achieving business success, for in truth no one entrepreneur is born.

### About the company

The Kids & Teens is an educational program created for children and teenagers, whose ambition is based on the full education, implementing a philosophy of modern school open to changing the world today. It aims to collaborate with the family in education and training of the child / teenager in a suitable environment for their development where they feel confident, to grow autonomously and perform meaningful learning. Each child / teenager has the potential of its own, being part of the company values respect this individuality.

### Futher Information

In times of so many jobs under threat all tips positive should be taken into consideration: the persistence is important for anyone who wants to succeed and believe in its potential. Rationality is also important, do not solve anything on strong emotions, let the dust settles, rationalize before deciding.
