Member of the Romanian - Turkish Association of Business Women

Partner of the Chamber of Commerce and Industry Romania – Azerbaijan

S.C. Era Prod SRL

Sector	<i>Restaurant Councelling for traders in the areas of colaboration between Romania, Tukey and Azerbaijan</i>
Region	<i>Bucharest – Ilfov, Romania</i>
Nomination as an Ambassador	<p><i>I am a person driven by a strong will, I believe in myself and my insights, and always inspired by my faith in the good Lord, Jesus Christ. My experience so far taught me that difference is not made by gender, but by <u>attitude, by the intention and motivation</u> that are put into obtaining what one wants. My grandmother taught me two important things: to have faith and desire to achieve. The feeling one has when thinking about the things they want is the one that creates, that makes it materialize. Each accomplishment started with a thought, an idea which, due to perseverance and faith, became real. Grandmother also taught me that there are three steps to be followed in life:</i></p> <ul style="list-style-type: none"> <i>✚ Picture the person you want to become, imagine where you want to get</i> <i>✚ Act in the desired direction, make your daily activities steps towards your way</i> <i>✚ Have the attitude of the person that has achieved his/her goals. Behave as if you have already obtained what you desired</i> <p><i>Each morning, I... Say a prayer and thank the Good Lord. Set my intention for that day. Today I set my mind into being more creative. What is your intention for today?</i></p>
About the company	<p><i>Supporting trade and further development of the cooperation in various areas between traders, and promoting their interests regarding production and trade to the authorities.</i></p>
Raising awareness	<p><i>For centuries, women lived in a men's world, having no rights, but the duty of being good wives and mothers</i></p> <p><i>We are lucky to be living in the 21st century, and our interest, the women, is to make woman be considered and consider herself an independent being, with legal, economical and political rights, in a world of "male domination. "</i></p>
Further information	<p><i>I believe that, by encouraging women to start a business on their own, by involving them in this predominantly male - dominated world, where liberal feminism advocates for equality among people, I can bring my contribution to the idea of partnership.</i></p>
