Serbia

Nomination as an Ambassador

At the present time there is a possibility of a choice. The problem is that all of us often choose the easier way not seeing the things comprehensively. Marija Stevanovic wants to show to all girls around the world that they can find success through education, work and courage, and that's the only long term solution.

Marija was one of the best students from Belgrade University and is currently completing her doctorate, she worked in the public sector, but still decided to try entrepreneurship. Now she succeeds in her agency and has a large number of clients.

She holds to her word as she is a professional, sometimes to her own detriment. With no advertising, only by the system of recommendations, her results are more than concrete.

About the company

MS EMPLOYMENT is an agency for consulting and management engaged in providing loans and grants from domestic and foreign sources of financing. Users are individual farmers, entrepreneurs, SMEs, large companies, NGOs, municipalities, public enterprises, etc... MS EMPLOYMENT is also creating strategic documents, studies, action plans, market analysis and other projects.

Raising awareness

Marija thinks it should be emphasized to women that a good idea is needed to start their own business. And that they only have to be persistent. What is missing is just information: what are their rights and options. And this is what Marija's daily work is.

Further information

Ambassador of female entrepreneurship are supposed to exchange information with each other, collaborate, be an example of good practice to others, but Marija is committed to launching other issues too, such as: gender equality, domestic violence, the fight against drug addiction and the like.

Emancipation has brought us much good, but we now need to help each other to be successful with all that we bear - that is to be equally accomplished as a business woman in the family as a mother.
