Karen Dell'Armi is a new contemporary jewellery designer/maker. Having been fortunate enough to be selected for New Designers - One Year On at New Designers in July 2008, Karen has had a busy year. Visit [www.dellarmi.co.uk](http://www.dellarmi.co.uk) for an up to date list of outlets & forthcoming exhibitions.

Karen's style is bold & sculptural with clean, often geometric shape and form. Karen also loves creating fascinating and tactile surface patterns and textures that are organic in feel.

This is a second career for Karen - having given up a career in marketing to raise her family - Karen is like a kid in a sweetshop when in her workshop! Karen is committed to experimentation and development throughout the design and hand-making processes involved and inspiring women to start their own business.
