

**SHORT SUMMARY OF CONCLUSIONS OF THE 29TH MEETING OF THE SCIENTIFIC
REVIEW GROUP ON TRADE IN WILD FAUNA AND FLORA¹
19 APRIL 2004**

The SRG took the following decisions under Articles 4.1(a)(i) and 4.2(a) of Regulation 338/97:

**1) Negative opinions² for import of specimens from the following species/
countries combinations:**

<i>Scaphiophryne gottlebei</i>	Madagascar
<i>Uromastyx geyri</i>	Niger

**2) Negative opinions for import of specimens of the following species/countries
combinations confirmed - to be formalised in the Suspensions regulation:**

<i>Mantella aurantiaca</i>	Madagascar
----------------------------	------------

**3) Positive opinion for import of specimens of the following species/countries
combinations**

<i>Balearica pavonina</i>	Sudan
---------------------------	-------

NOTE:

- Trade in and situation of the species to be carefully monitored.

5) Negative opinions changed to positive:

<i>Pericopsis elata</i>	Congo Brazzaville
<i>Python curtus</i>	Indonesia

NOTE:

- The positive opinion for *Pericopsis elata* is subject to the outcome of the Significant Trade Review under CITES.

¹ Subject to confirmation by the Members of the Scientific Review Group. Further, it is understood that the above opinions are also those of each Scientific Authority and will be reflected in any opinion given in relation to the application of Art. 4.1(a) and 4.2(a) of Regulation 338/97. These opinions will remain valid unless or until circumstances related to the trade or conservation status of the species change significantly.

² Recommendation based on the following guidelines: The species is in trade or is likely to be in trade, and introduction to the Community from the country of origin at current or anticipated levels of trade is likely to have a harmful effect on the conservation status of the species or the extent of the territory occupied by the species.
