

IAIA SEA 2011 advert

The International Association for Impact Assessment (IAIA) in cooperation with the European Commission, Polish EU Presidency and the United Nations Economic Commission for Europe will organize a special conference on Strategic Environmental Assessment (SEA) on 21-23 September 2011 in Prague, Czech Republic. The symposium is held to celebrate the 10th anniversary of the SEA Directive and the entry into force of the SEA Protocol.

The Conference will provide an opportunity to discuss the state of practice in SEA in Europe and the contribution that SEA systems make to planning and decision-making. Other sessions will examine options for addressing climate change issues in SEA; experience with using SEA as a sustainability assessment; use of SEA in the EU Cohesion Policy and many other issues addressed in the attached conference announcement. The deadline for registering abstracts for proposed papers is June 15. For more information or to register, visit <http://www.iaia.org/specialmeetings/prague11>.
