

27th July 2009

**CLARIFICATION
to call for tender
ENV.A.1/FRA/2009/0040**

- 1. Tender Specifications p. 5-6. Among other evidences of qualifications and experience, the tenderer must provide a list of main clients from the past three years in areas related to services which are subject to this invitation to tender (Part 1, Section 4.2, p. 5-6). However, in the detailed outline of the required qualification evidence (Part 3, Selection Criteria, Section 2.2, p. 17), a reference list of the works carried out in the last five years is mentioned.**

Can you please clarify which kind of reference list the tenderer needs to provide to fulfill the criteria:

- **the list of clients from the last three years,**
- **or the list of works from the last five years?**

Both are required. One is more specific than the other, in that it requires details of relevant work, i.e. work in the area to which the contract refers.

- 2. Price calculations for the tasks. We assume that we are just to provide prices and the composition of the proposed team for the for tasks (tender specifications, p. 29-32). Please clarify.**

You need to provide a calculation grid per task, as in page 22, you need to fill in Table A for each task, and you need to amalgamate the information for all tasks as in the table on page 18.

- 3. The CVs of the teams proposed for the four tasks should be included in the booklet containing the administrative details, exclusion and selection criteria. Please clarify.**

For Table A, the details of where to find the CV's in the booklet (page number) should be detailed, so that they are easy to find.
