

20th July 2009

**CLARIFICATION (2)
to call for tender
ENV.D.1/SER/2009/0053**

Question 1:

If any of the experts in the team are already members of EU Scientific Committees related to this subject (part 1, point 3.1 in the tender specifications). Do you regard this as negative or positive to the technical competence of the team?

Answer 1:

the fact that any of the experts in the team are members of EU Scientific Committees does not have an impact on the assessment. It is the scientific quality of the experts and their experience in the field which will be taken into account at the assessment of the team competence.
