Please be advised that following a clarification request, the above-mentioned tender specifications have been changed as follows:

Part 1, point 4.3 of the specifications ('Independence/conflict of interest') on page 16 of the technical specifications, should read (corrected part in bold):

"The evaluation should be carried out with complete independence. Individuals or organisations that have played a major role in the selection and/or monitoring of **LIFE III or LIFE +** projects or have benefited from NGOs grants are considered to be in a situation of conflict of interest".

We apologize for any inconvenience this may have caused, and look forward to receiving an offer from you.

Yours sincerely,

p.o. I. Papavassiliou
