An overview of the New Biogeographical Process

A 'new' biogeographical process has been underway since 2011, when it was introduced by the European Commission to ensure continuous and effective management of the Natura 2000 network of protected sites. This New Biogeographical Process continues the division of the EU territory into biogeographical regions

LIFE and the New Biogeographical Process

The LIFE programme is playing an important role in the development of the New Biogeographical Process, drawing on more than two decades of practical nature conservation experience on the ground. Anne Burrill, Deputy Head of Unit, LIFE Nature Unit, explains how LIFE is contributing to the process.
