The latest news from the EU LIFE Programme

## LIFE projects restore rivers: migrating fish return

The first LIFE platform meeting to address riverine species, held recently in Estonia, was attended by representatives from over 15 completed and ongoing LIFE projects concerning the conservation of freshwater species, particularly migratory fish.

## LIFE and the conservation of freshwater fish

An EU Policy Officer and a senior scientist talk about the LIFE Programme, fish conservation and the importance of platform meetings, specifically the one in Tartu (Estonia) that brought together experts in freshwater ecology and conservation from across Europe.
