

The EU Agency for Fundamental Rights provides EU Member States and EU Institutions with evidence based advice on fundamental rights. In its work, the Agency has addressed the situation of Roma, Sinti and Travellers systematically through research, stakeholder cooperation and awareness raising. The Presentation will focus on state of play with regard to the situation of Roma in access to housing and provide insight into Agency's Opinions addressed to MS and EU institutions. The role of local authorities and multilevel governance on implementation of human rights at the local level will be addressed. More information on FRA's work on Roma is available at:
