The Youth Employment Initiative (YEI) will exclusively support young people not in employment, education or training in regions experiencing youth unemployment rates above 25%. Combined with funding from the European Social Fund (ESF), €6 billion will initially be available for 2014-2015, which can be topped up with additional funding from the ESF or from national sources. It will allow to finance concrete projects and actions and will ensure that the level of support per young person is sufficient to make a real difference in parts of Europe where the challenges are most acute.
