Angers, 1 June 2007

To Janez POTOČNIK  
Commissioner for Science and Research

Dear Commissioner Potocnik,

I am pleased to inform you that, in response to the publication of the Recommendation of 11 March 2005 (official Journal of the European Union of 22 March 2005, L75/67) concerning the European Charter for Researchers and the Code of Conduct for the recruitment of researchers and after favourable recommendations of the Scientific Council on 18 September 2006 and the Executive Board on 13 of December 2006:

The University of Angers (UA), represented by its Presidents, Professor Alain BARREAU until February 2007 and Professor Daniel Martina since February 2007, fully supports the initiative of the European Commission and the European bodies for research and higher education in order to contribute to the creation of a European Research Area and to encourage the mobility of the researchers within the Union.

Aware of the need to take concrete measures in order to deepen this Research Area and to facilitate the professional careers of the researchers everywhere in Europe, **the University of Angers (UA) subscribes to every single principle of the European Charter for Researchers.**

Finally, the University commits itself to carry out the internal reforms and to take the necessary steps to comply with the Code of Conduct for the recruitment of researchers within a reasonable lapse of time and in terms with the French applied law”.

Sincerely yours,

Professor Françoise Grolleau  
The European Unit Director
