By the Senate Decision , the University of Agricultural Sciences and Veterinary Medicine from Bucharest expresses its agreement upon the principles and requests presented in "The European Charter for Researchers" and in "The Code of Conduct for the Recruitment of Researchers" and it adheres to these two documents which contribute to the development of an attractive and sustainable European labour force market for researchers.

We mention that even since the 2005 launching of the Researchers Charter and of the Recruitment Code of Conduct by the European Commission, the foresights stipulated within the above mentioned documents, concerning the researchers recruitment, have been included within the Research Strategy of our University, and they have been consistently applied in the researchers recruitment process, professional development, scientific mobility, promotion on the carrier scale as well as in the research management activities.

By signing the Adhesion Statement of our University to these two mentioned documents , we express our wish of promoting within the future scientific activity the principles which these European documents decree, as well as our conviction on Romania's full and fast integration necessity within the European Research Field.

Bucharest, 15.06.2010

RECTOR,

Professor D.Sc. **Ștefan Diaconescu**
