

UZBEKISTAN

Central Asia Business Organisations Trainings

EuropeAid

This initiative aims at encouraging the sustainable development of SMEs in the Republic of Uzbekistan. This will be done by supporting the staff of the Uzbek Chamber of Commerce and Industry in the provision of adequate business services, expertise, best practices and advocacy actions in favour of its members.

EUROPEAN
COMMISSION

Project Background

The Republic of Uzbekistan has significant development and business potential but still faces important challenges on the way of its integration in the world economy. The Chamber of Commerce and Industry of Uzbekistan plays a key role in this transition. Nevertheless, it needs to improve further its capacity to assist local companies by delivering proper business services to SMEs and by creating bridges between the government and the private sector.

Project Objectives

The project will provide tailor-made training and institutional capacity building to the Chamber of Commerce and Industry of Uzbekistan. It will enhance its administrative capacity, support the development of relationships and networks between European and Uzbek Chambers of Commerce and will help develop lobbying and advocacy functions in favour of SMEs.

Project Activities

- Drafting methodological guidelines ;
- Assessment of the overall training needs and constraints, development of tools to train the trainers, information kits, project leaflets and multilingual web platform ;
- Implementation of basic training sessions for trainers ;
- Implementation of intermediate training sessions for trainers, feedback reporting, fine tuning and target group methodology ;
- Implementation of advanced training sessions for trainers with additional on-field training missions on EU best practices ;
- Follow up and dissemination activities: small matchmaking event and final conference.

Facts and figures

Total budget: € 562 740 (EU contribution: 85%)

Duration of the project: 24 Months, December 2008-December 2010
