

254/2016 - 15 December 2016

Asylum in the EU Member States

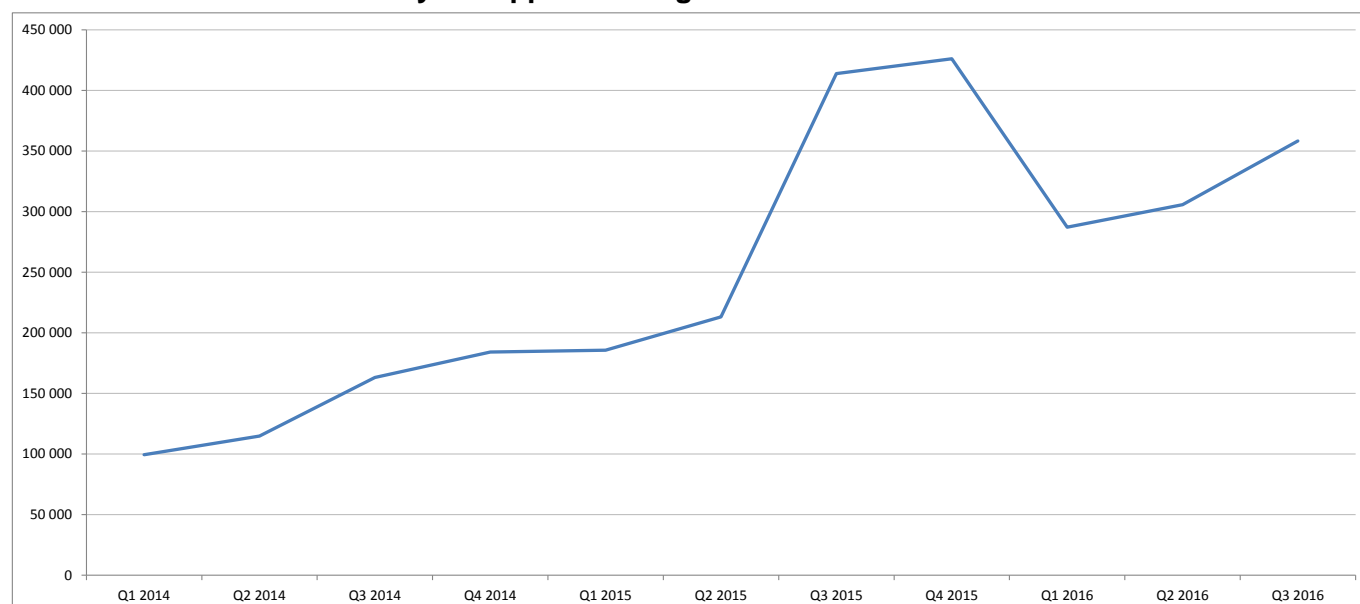

Number of first time asylum seekers up to almost 360 000 in the third quarter of 2016

Syrians, Afghans and Iraqis were the most numerous

During the third quarter of 2016 (from July to September), 358 300 first time asylum seekers applied for international protection in the Member States of the **European Union** (EU), up by 17% compared with the second quarter of 2016 (when 305 700 first time applicants were registered). From January to September 2016, more than 950 000 first time asylum seekers were registered in the EU Member States.

With 87 900 first time applicants between July and September 2016, **Syrians** remained the main citizenship of people seeking international protection in the EU Member States, ahead of **Afghans** (62 100 first time applicants) and **Iraqis** (36 400). They represent the three main citizenships of first time asylum applicants in the **EU** Member States over the third quarter 2016, accounting for slightly more than half of all first time applicants.

First time asylum applicants registered in the EU Member States

These quarterly data on asylum in the **EU** come from a [report](#) issued by Eurostat, the statistical office of the European Union.

Two-thirds applied for asylum in Germany

During the third quarter of 2016, the highest number of first time applicants was registered in **Germany** (with over 237 400 first time applicants, or 66% of total first time applicants in the EU Member States), followed by **Italy** (34 600, or 10%), **France** (20 000, or 6%), **Greece** (12 400, or 4%), the **United Kingdom** (9 200, or 3%) and **Austria** (8 400, or 2%). Among Member States with more than 2 000 first time asylum seekers in the third quarter 2016, numbers of first time applicants rose most compared with the previous quarter in **Bulgaria** (+82%), the **Netherlands** (+72%), **Belgium** (+29%), **Italy** (+28%) and **Germany** (+27%). In contrast, the largest decreases were recorded in **Hungary** (-73%), **Poland** (-37%) and **Austria** (-22%).

Highest number of first time applicants relative to the population in Germany, Greece and Malta

Compared with the population of each Member State, the highest rate of registered first time applicants during the third quarter 2016 was recorded in **Germany** (2 890 first time applicants per million inhabitants), followed by **Greece** (1 152) and **Malta** (1 091). In contrast, the lowest rates were observed in **Slovakia** (7 applicants per million inhabitants), **Portugal** (19), **Romania** (22), the **Czech Republic** (28) and **Estonia** (30). In the third quarter 2016, there were in total 702 first time asylum applicants per million inhabitants in the **EU** as a whole.

1 in every 4 first time asylum seekers were Syrian citizens

Syria (25% of the total number of first time applicants) remained during the third quarter of 2016 the main country of citizenship of asylum seekers in the EU Member States. Of the 87 900 **Syrians** who applied for the first time for asylum in the EU in the third quarter 2016, 81% were registered in **Germany** (71 200). **Syrians** represented the main citizenship of asylum seekers in eleven EU Member States.

Afghanistan (17% of the total number of first time applicants) was the second main country of citizenship of asylum seekers in the EU Member States in the third quarter 2016. Of the 62 100 **Afghans** seeking asylum protection for the first time in the EU Member States during the period July-September 2016, more than 80% applied in **Germany** (50 500). **Afghans** represented the main citizenship of asylum seekers in five EU Member States.

With 36 400 first time applicants (or 10% of the EU total) during the third quarter 2016, **Iraq** was the third country of citizenship of asylum seekers in the EU Member States. 82% were registered in **Germany** (29 900).

Over a million asylum applications pending

Pending applications for international protection are those that have been made at any time and are still under consideration by the responsible national authorities at the end of the reference period. In other words, they refer to the “stock” of applications for which decisions are still pending. This statistic is meant to measure the workload of the national authorities.

At the end of September 2016, almost 1.2 million applications for asylum protection in the **EU** Member States were under consideration by the responsible national authorities. A year earlier, at the end of September 2015, there were around 866 000. With nearly 689 700 pending applications at the end of September 2016 (or 58% of the EU total), **Germany** had by far the largest share in the EU, ahead of **Sweden** (112 000, or 9%), **Austria** (81 400, or 7%) and **Italy** (81 300, or 7%).

Asylum applications pending at the end of the month in the EU Member States

The source dataset can be found [here](#).

Methods and definitions

Data on asylum are provided to Eurostat by the Ministries of Interior, Justice or immigration agencies of the Member States according to the provisions of Article 4 of the Regulation (EC) 862/2007 of 11 July 2007 on Community statistics on migration and international protection. In addition, all Member States provide data on first time asylum applicants on a voluntary basis.

'Application for international protection' means an application for international protection as defined in Art. 2(g) of Council Directive 2004/83/EC, i.e. including requests for refugee status or for subsidiary protection status, irrespective of whether the application was lodged on arrival at the border, or from inside the country, and irrespective of whether the person entered the territory legally (e.g. as a tourist) or illegally.

'First time asylum applicant/seeker' means a person having submitted an application for international protection or having been included in such application as a family member, for the first time. Applications submitted by persons who are subsequently found to be a subject of a Dublin procedure are included in the statistics on first time asylum applicants if such persons are also a subject of first asylum application. A person can be recorded as first time applicant only if he or she had never applied for international protection in the reporting country in the past, irrespective of the fact that he or she is found to have applied in another Member State of the European Union.

Contrary to Eurostat's annual news releases on asylum applicants published in March of each year which refers to 'Total asylum applicants', this quarterly news release refers to the number of 'First time asylum applicants' only. The indicator 'First time asylum applicants' excludes repeat applicants i.e. persons applying for asylum more than once in one country and therefore more accurately presents the number of persons applying for international protection in the EU Member States. The use of this indicator is now possible as all Member States are able to provide it to Eurostat.

A person being the subject of a **'pending application'** means a person who is the subject of an application for international protection under consideration by the responsible national authority at the end of the reference period. It includes the number of persons with pending applications at all instances of the administrative and/or judicial procedure (see Art 4.1(b) of the Regulation).
