

54/2018 - 4 April 2018

February 2018

Euro area unemployment at 8.5%

EU28 at 7.1%

The **euro area** (EA19) seasonally-adjusted unemployment rate was 8.5% in February 2018, down from 8.6% in January 2018 and from 9.5% in February 2017. This is the lowest rate recorded in the **euro area** since December 2008. The **EU28** unemployment rate was 7.1% in February 2018, down from 7.2% in January 2018 and from 8.0% in February 2017. This is the lowest rate recorded in the **EU28** since September 2008. These figures are published by **Eurostat, the statistical office of the European Union**.

Eurostat estimates that 17.632 million men and women in the **EU28**, of whom 13.916 million in the **euro area**, were unemployed in February 2018. Compared with January 2018, the number of persons unemployed decreased by 201 000 in the **EU28** and by 141 000 in the **euro area**. Compared with February 2017, unemployment fell by 1.968 million in the **EU28** and by 1.436 million in the **euro area**.

Member States

Among the Member States, the lowest unemployment rates in February 2018 were recorded in the **Czech Republic** (2.4%), **Germany** and **Malta** (both 3.5%) as well as **Hungary** (3.7% in January 2018). The highest unemployment rates were observed in **Greece** (20.8% in December 2017) and **Spain** (16.1%).

Compared with a year ago, the unemployment rate fell in all Member States except **Estonia** where it increased (from 5.8% to 6.5% between January 2017 and January 2018). The largest decreases were registered in **Cyprus** (from 12.6% to 9.6%), **Greece** (from 23.4% to 20.8% between December 2016 and December 2017) and **Croatia** (from 12.0% to 9.6%).

In February 2018, the unemployment rate in the **United States** was 4.1%, stable compared to January 2018 and down from 4.7% in February 2017.

Youth unemployment

In February 2018, 3.589 million young persons (under 25) were unemployed in the **EU28**, of whom 2.520 million were in the **euro area**. Compared with February 2017, youth unemployment decreased by 314 000 in the **EU28** and by 213 000 in the **euro area**. In February 2018, the youth unemployment rate was 15.9% in the **EU28** and 17.7% in the **euro area**, compared with 17.3% and 19.4% respectively in February 2017. In February 2018, the lowest rates were observed in **Germany** (6.2%), the **Netherlands** (7.2%) and the **Czech Republic** (7.5%), while the highest were recorded in **Greece** (45.0% in December 2017), **Spain** (35.5%) and **Italy** (32.8%).

Geographical information

The **euro area (EA19)** includes Belgium, Germany, Estonia, Ireland, Greece, Spain, France, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.

The **European Union (EU28)** includes Belgium, Bulgaria, the Czech Republic, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, the Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland, Sweden and the United Kingdom.

Methods and definition

Eurostat produces harmonised unemployment rates for individual EU Member States, the euro area and the EU. These unemployment rates are based on the definition recommended by the International Labour Organisation (ILO). The measurement is based on a harmonised source, the European Union Labour Force Survey (LFS).

Based on the ILO definition, Eurostat defines **unemployed persons** as persons aged 15 to 74 who:

- are without work;
- are available to start work within the next two weeks;
- and have actively sought employment at some time during the previous four weeks.

The **unemployment rate** is the number of people unemployed as a percentage of the labour force.

The **labour force** is the total number of people employed plus unemployed. In this news release unemployment rates are based on employment and unemployment data covering persons aged 15 to 74.

The **youth unemployment rate** is the number of people aged 15 to 24 unemployed as a percentage of the labour force of the same age. Therefore, the youth unemployment rate should not be interpreted as the share of jobless people in the overall youth population.

When data for the most recent month are not available for a Member State, EU and EA aggregates are calculated using the latest data available for that Member State.

Country notes

Germany, the Netherlands, Austria, Finland, Sweden and Iceland: the trend component is used instead of the more volatile seasonally adjusted data.

Denmark, Estonia, Hungary, Portugal, the United Kingdom and Norway: 3-month moving averages of LFS data are used instead of pure monthly indicators.

Revisions and timetable

The data in this News Release can be subject to revisions, caused by updates to the seasonally adjusted series whenever new monthly data are added; the inclusion of the most recent LFS data in the calculation process; update of seasonal adjustment models with complete annual data.

Compared with the rates published in News Release 34/2018 of 1 March 2018, the January 2018 unemployment has been revised from 7.3% to 7.2% for EU28 and remained unchanged for EA19. Among Member States, the rate has been revised by more than 0.1 percentage points (pp) upwards for Estonia and Cyprus (both by 0.2 pp, December data for Estonia). The unemployment rate has been revised by more than 0.1 pp downwards for Slovenia (by 0.5 pp), Bulgaria (by 0.4 pp), Belgium and Denmark (both by 0.3 pp), as well as Austria (by 0.2 pp).
