INTRODUCTION	9
Statistics on regions and cities	10
The NUTS classification	10
Coverage	11
More regional information	11
1 POPULATION	13
Unveiling the regional pattern of demography	14
Population density	14
Population change	14
Conclusion	23
<i>Methodological notes</i>	23
2 EUROPEAN CITIES	25
Introduction	26
Enhanced list of indicators	26
Moving from five-year periodicity to annual data collection	26
Extended geographical coverage	26
Discovering the spatial dimension	26
Core cities	28
Larger urban zones	28
Geography matters	33
3 LABOUR MARKET	35
Regional working time patterns	36
Brief overview for 2007	36
Regional work patterns	39
Part-time jobs: lowering the average working time	41
Employees spend less time at work	44
Conclusion	45
<i>Methodological notes</i>	46
<i>Definitions</i>	46
4 GROSS DOMESTIC PRODUCT	49
What is regional gross domestic product?	50
Regional GDP in 2006	50
Average GDP over the three-year period 2004–06	52
Major regional differences even within the countries themselves	52
Dynamic catch-up process in the new Member States	52
Different trends even within the countries themselves	56
Convergence makes progress	56
Conclusion	57
<i>Methodological notes</i>	59
<i>Purchasing power parities and international volume comparisons</i>	59

5 HOUSEHOLD ACCOUNTS	61
Introduction: measuring wealth	62
Private household income	62
Results for 2006	62
Primary income	62
Disposable income	64
Dynamic development on the edges of the Union	68
Conclusion	70
<i>Methodological notes</i>	71
6 STRUCTURAL BUSINESS STATISTICS	73
Introduction	74
Regional specialisation and business concentration	74
Specialisation in business services	80
Employment growth in business services	84
Characteristics of the top 30 most specialised regions in business services	84
Conclusion	87
<i>Methodological notes</i>	87
7 INFORMATION SOCIETY	89
Introduction	90
Access to information and communication technologies	90
Use of the Internet and Internet activities	93
Non-users of the Internet	96
Conclusion	97
<i>Methodological notes</i>	99
8 SCIENCE, TECHNOLOGY AND INNOVATION	101
Introduction	102
Research and development	102
Human resources in science and technology	105
High-tech industries and knowledge-intensive services	105
Patents	109
Conclusion	111
<i>Methodological notes</i>	111
9 EDUCATION	113
Introduction	114
Students' participation in education	114
Participation of 4-year-olds in education	114
Students in upper secondary education and post-secondary non-tertiary education	116
Students in tertiary education	119
Tertiary educational attainment	119
Lifelong learning	119
Conclusion	123
<i>Methodological notes</i>	123

10 TOURISM	125
Introduction	126
Accommodation capacity	127
Overnight stays	127
Average length of stay	130
Tourism intensity	130
Tourism development	133
Inbound tourism	135
Conclusion	135
<i>Methodological notes</i>	137
11 AGRICULTURE	139
Introduction	140
Utilised agricultural area	140
Proportion of area under cereals to the utilised agricultural area	140
Proportion of permanent crops to the utilised agricultural area	140
Agricultural production	143
Wheat production	143
Grain maize production	143
Rapeseed production	146
Conclusion	146
<i>Methodological notes</i>	148
ANNEX	149
European Union: NUTS 2 regions	149
Candidate countries: statistical regions at level 2	152
EFTA countries: statistical regions at level 2	153
