

## Table of contents

Foreword .....	1
Acknowledgments .....	2
Table of contents .....	3
Introduction .....	5
Motivation for guidelines .....	5
Scope of guidelines .....	5
Costs and risks .....	6
Background to guidelines and basic definitions .....	6
Annex: Principles for seasonal adjustment .....	7
1. A policy for seasonal adjustment .....	8
1.1. A general seasonal adjustment policy .....	8
1.2. The need for domain specific seasonal adjustment policies .....	9
1.3. Consistency of general and domain specific policies .....	10
1.4. Stability of seasonal adjustment policies .....	11
1.5. Dissemination of general and domain specific seasonal adjustment policies .....	12
1.6. Quality framework for seasonal adjustment .....	13
2. Pre-treatment .....	14
2.1. General aspects for choosing between detailed and automatic pre-treatment .....	14
2.2. Graphical analysis of the series .....	16
2.3. Calendar adjustment .....	17
2.4. National and EU/euro area calendars .....	18
2.5. Choosing the frequency of time series for calendar adjustment .....	19
2.6. Other calendar related and weather effects .....	20
2.7. General principles of outlier detection and correction .....	22
2.8. Treatment of outliers at the end of the series and at the beginning of a major economic change .....	23
2.9. Model selection .....	24
2.10. Decomposition scheme .....	25

3.	Seasonal adjustment.....	26
3.1.	Choice of seasonal adjustment method.....	26
3.2.	Choice of the software.....	27
3.3.	Temporal consistency between unadjusted and seasonally adjusted data .....	28
3.4.	Direct and indirect approaches .....	29
3.5.	Direct versus indirect approach: dealing with data from different agencies.....	30
3.6.	Different seasonal filters for different months/quarters.....	31
4.	Revision policies.....	32
4.1.	General revision policy and release calendar .....	32
4.2.	Concurrent versus current adjustment .....	33
4.3.	Length for routine revisions .....	34
4.4.	Length for major revisions .....	35
5.	Accuracy of seasonal adjustment.....	36
5.1.	Validation policy for seasonal adjustment.....	36
5.2.	Measurement for individual series.....	37
5.3.	Comparison of alternative approaches/strategies.....	38
6.	Specific issues on seasonal adjustment.....	39
6.1.	Seasonal adjustment of short and very short time series .....	39
6.2.	Seasonal adjustment of long time series .....	40
6.3.	Treatment of problematic series .....	41
6.4.	Seasonal heteroskedasticity .....	42
6.5.	Seasonal adjustment of annually chain-linked series (Laspeyres-type).....	43
7.	Data presentation issues.....	45
7.1.	Data availability in databases .....	45
7.2.	Press releases.....	46
7.3.	Documenting metadata for seasonal adjustment .....	47
