Abbreviations	4
1. Introduction.....	5
1.1. Background	5
1.2. Circular material use rate – the basic concept	6
1.3. Relation with Sankey diagrams	6
2. Data sources and methodology.....	9
2.1. Data sources	9
2.1.1. Waste statistics.....	9
2.1.2. Economy-wide material flow accounts	9
2.1.3. Trade statistics	10
2.2. Methodology.....	10
2.2.1. Specification of the denominator 'overall material use'.....	10
2.2.2. Approximating 'circular use of materials'	11
2.3. Breakdowns by type of material.....	14
2.3.1. Consumption by material category	14
2.3.2. Approach for the breakdown of the circular use of materials into material categories ..	14
3. Results and interpretation.....	17
4. Next steps	21
5. Conclusions	23
Annexes.....	25
Annex 1. List of CN codes used for indicator calculation — from year 2004 onwards.....	25
Annex 2. Circular material use rate, domestic material consumption, recycling and imports/exports of waste	31
