Preface	3
Executive summary for the researchers	4
Contents	6
1. General information on the module	8
Description of the module	8
Aim of the module	8
Main findings	8
List of participating countries	9
Description of the variables	10
Main characteristics of the national 2017 ad-hoc module	11
Data collection	11
Sample size	12
Target population per country and variable	15
Imputation rates.....	16
Non-response rates	17
Proxy interviews in the 2017 LFS AHM	18
Publication limits for ad-hoc estimates.....	19
2. Quality analysis by variable	21
1. MAINCLNT: Economic dependency	22
Technical characteristics	22
Quality assessment	23
Analysis of the results.....	26
Conclusions and recommendations	29
2. WORKORG: Organisational dependency	30
Technical characteristics	30
Quality assessment	31
Analysis of the results.....	34
Conclusions and recommendations	35
3. REASSE: Main reason for becoming self-employed	36
Technical characteristics	36
Quality assessment	37
Analysis of the results.....	40
Conclusions and recommendations	42
4. SEDIFFIC: Main difficulty as self-employed	43
Technical characteristics	43
Quality assessment	44

Analysis of the results.....	46
Conclusions and recommendations	49
5. REASNOEM: Main reason for not having employees	50
Technical characteristics	50
Quality assessment	52
Analysis of the results.....	54
Conclusions and recommendations	56
6. BPARTNER: Working with business partners	57
Technical characteristics	57
Quality assessment	59
Analysis of the results.....	61
Conclusions and recommendations	63
7. PLANEMPL: Planning hiring of employees or subcontracting	64
Technical characteristics	64
Quality assessment	65
Analysis of the results.....	67
Conclusions and recommendations	70
8. JBSATISF: Job satisfaction	71
Technical characteristics	71
Quality assessment	72
Analysis of the results.....	73
Conclusions and recommendations	76
9. AUTONOMY: Job autonomy	77
Technical characteristics	77
Quality assessment	78
Analysis of the results.....	80
Conclusions and recommendations	82
10. PREFSTAP: Preferred professional status in the main job	83
Technical characteristics	83
Quality assessment	84
Analysis of the results.....	87
Conclusions and recommendations	89
11. OBSTACSE: Main reason for not becoming self-employed	90
Technical characteristics	90
Quality assessment	91
Analysis of the results.....	94
Conclusions and recommendations	96
Economically dependent self-employed	97
Conclusions and recommendations	100
