- **Art 5 (6) – Derogation concerning the maximum period for identifying the equine animal**

No derogation.

Equidae born in Lithuania shall be identified before 31 December of the year of birth or within six months following the date of birth, whatever date occurs later.

- **Art 7 (2) – Derogation concerning the identification of certain equidae living under wild or semi-wild conditions**

No derogation.

- **Art 12 (4) – Alternative methods for identity verifications**

No derogation.

For the first time of identification the equine animal is marked by the implantation of a transponder.

- **Art 14 (2) – Derogation for certain movements and transport without or with simplified identification documents**

No derogation.

- **Art 23 (3) – The central database**
