

# Meeting of the Standing Committee on Food Chain and Animal Health Section Animal Nutrition

26 September 2002, CCAB – rue Froissart 36 – 1040 Brussels

The meeting will begin 10.a.m. (local time).

## STANDING COMMITTEE

**1. Discussion and possible opinion on a draft Commission Regulation concerning the provisional authorisation of a new use of an additive in feedingstuffs**

**2. Official controls in animal nutrition pursuant to Art.22 of Council Directive 95/53/EC:**

- results of the national control programmes and co-ordinated inspection programme for the year 2001;
- -ordinated inspection programme for the year 2003.

**3. SETTING TIMETABLE FOR ADDITIVES (ARTICLE 4)**

### 3.1 Enzymes

“**Econase Wheat Plus**” - Endo-1, 4-beta-xylanase (IUB 3.2.1.8) from *Trichoderma reesei* CBS 529.94 and endo-1, 3(4)-beta-glucanase (IUB 3.2.1.6) from *Trichoderma reesei* CBS 526.94 in a ratio of 4:1 extension to new animal categories: Broilers and turkeys, Rapp.: **FIN** (clock 1 Day 0: **15.06.2002** end of 60 days period for formal check as foreseen under article 4 par 4: **14.08.2002**)

“**Natuphos FTU 11**” 3-phytase; EC 3.1.3.8 produced by *Aspergillus niger* CBS 491.94 (FTU-11) extension for use: Ducks, Geese, *Salmonidae* and Channel catfish (Day 0: **24.06.2002**, end of 60 days period for formal check as foreseen under article 4 par 4 of Dir. 70/524/EEC: **23.08.02**) Rapporteur: **NL**.

### 3.2 Microorganism

“**Biosprint BCCM<sup>tm</sup> / MUCL 39885**” - *Saccharomyces cerevisiae* BCCM<sup>tm</sup> / MUCL 39885 extension for use to the animal category: Dairy cattle (Day 0: **27.06.2002** end of 60 days period for formal check as foreseen under article 4 par 4 of Dir. 70/524/EEC: **26 August 2002**) Rapp.: **ITA**

“**Biomin BBSH 797**” *Eubacterium sp.* DSM 11798 application for a new additive, animal categories: piglets, fattening pigs, broilers (Day 0: **01.06.2002** end of 60 days period for formal check as foreseen under article 4 par 4 of Dir. 70/524/EEC: **30.07.2002**) Rapp: **A**

“**Reuteri<sup>TM</sup> Pig Powder**” *Lactobacillus reuteri* 1063S application for a new additive, animal category piglets (Day 0: **31.07.02** end of 60 days period for formal check as foreseen under article 4 par 4 of Dir. 70/524/EEC: **29.09.02**) Rapp.: **SW**

“**Yea Sacc**” – *Saccharomices cerevisiae* (N°5) – extension to the following animal category: Horses, Rapp. **B** (clock 3, Day 0: **19 July 2002** as foreseen under article 4, paragraph 6).

“**Provita E** –*Enterococcus faecium* DSM 7134 - clock re-started (multifax) the **14.09.2002**, Art. 4 par. 6 of Council Directive 70/524/EEC - Rapp: **A** Animal category: Piglets, Fattening pigs, Sows.

### 3.3 Vitamines

“**Vit•D®**” Vitamin D<sup>3</sup> 25-hydroxylcholecalciferol/25-hydroxy-pre-cholecalciferol; animal categories: Broilers, Turkeys, Laying hens; (Day 0: **11.07.02** end of 60 days period for formal check as foreseen under article 4 par 4 of Dir. 70/524/EEC: **09.09.02**); Rapp.: **SP**

### 3.4 Coccidiostats

“**Amprolmix**” Amprolium (art 4 par 4 of Directive 70/524/EEC) animal category: poultry Rapp: **F**

## 4. Dioxins

- Carbosan and SQM products: Update and continuation of the discussion  
- Application of Council Directive 2001/102/EC of 27 November 2001/ Follow-up and continuation of the discussion of the issues raised at the Expert Committee meeting on 29 July.

## 5. Other current issues

- Import conditions for the feed manufactures from third countries wishing to place their products on the common market. German request to discuss the issue.

## EXPERT COMMITTEE

### 1. Evaluation of additive dossiers

#### 1.1 Enzymes

“**Bio Feed Alpha**” alpha-amylase EC 3.2.1.1 and endo-1,3(4)-beta-glucanase EC 3.2.1.8 animal category: chickes for fattening Rapporteur **DK**. **Extension of storage period**

“**Roxazyme G2**” (N° 11) Preparation of endo-1, 4-beta-glucanase, endo-1,3(4)-beta-glucanase, endo-1,4-beta-xylanase produced by *Trichoderma longibrachiatum*. Clock 3: third evaluation period started on **17/05/2002**, Art. 4 par. 6 of Council Directive 70/524/EEC, Rapp: **B**

“**Avizyme 1300**” – Endo-1,4-beta-xylanase; Subtilisin (N°37) – extension for use to category of Laying Hens. Rapporteur **UK**. Clock 3 start of the first evaluation period: **11 April 2001**

“**Bio feed phytase**” (N°50)– 6-Phytase (EC 3.1.3.26) – clock 3 Art 4 par 6 of Dir. 70/524/EEC– second evaluation period started on **22.05.2002**- Rapp **DK** - Extension for use

for sows.

“**Endofeed DC**” Endo-1,3(4)-beta-glucanase EC 3.2.1.6 Endo-1,4-beta-xylanase EC 3.2.1.8 animal category: chickens for fattening. Rapporteur **ES**. **Application for permanent authorisation**

## 1.2 Microorganism

“**Levucell SB 20**” *Saccharomyces cerevisiae* CNCM I-1079 extension for use for a **permanent authorisation** to the animal category of piglets. Rapp: **F**

:“**Biosaf SC 47**” (*Saccharomyces cerevisiae*) - **application for a permanent authorisation** for the animal category: cattle for fattening; the provisional authorisation ended the 20<sup>th</sup> of February 2001 – evaluation of the dossier .Rapp.: **F**

“**Yea Sacc**” – *Saccharomices cerevisiae* (N°5) – extension to the following animal category: Horses, Rapp. **B** (clock 3, Day 0 as communicated via multifax: **19 July 2002** as foreseen under article 4, paragraph 6).

“**Provita E** –*Enterococcus faecium* DSM 7134 - clock re-started (multifax) the **14.09.2002**, Art. 4 par. 6 of Council Directive 70/524/EEC - Rapp: **A** Animal category: Piglets, Fattening pigs, Sows.

## 1.3 Growth promoters

“**Formi LHS**”–Potassium diformate –Hydro- piglets- pigs for fattening (Rapporteur: DK).  
Evaluation of the dossier

### 1.4.1 Products, where the evaluation was started under the scope of Directive 93/113/EC

#### **Micro-organisms, not authorised products**

**Reuteri for chicken** (Gaia Feed Broilers - *Lactobacillus reuteri*) - animal category: chickens for fattening - Rapp **S**

**Cylactin**, *Enterococcus faecium* extension for use of dogs and cats; discussion on supplementary dossier Rapp.: **D**

### 1.4.2 Products, where the application was sent before article 4 of Dir 70/524/EEC was-applicable

**Lactobacillus acidophilus** animal category: Chickens for fattening, laying hens- Rapp. **I**

## 1.5 Coccidiostats

“**Clinacox 0.5% 0.2% Premix**” (Diclazuril – end of provisional authorisation 14.12.2002) **application for a 10-years authorisation** animal category: chickens reared for laying – Rapp : **B** – evaluation of the dossier

“**Sacox 120 mg microgranulate**” Salinomycin sodium; application for a 10-years authorisation

animal category: chicken reared for laying. Rapp: **UK** evaluation of the dossier

“**Koffogran**” Nicarbazin – (art 4 paragraph 6 clock 3: first evaluation period) animal category: chicken for fattening, Rapp: **B evaluation of the dossier.**

## 1.6 Antibiotics

“**Maxus G 200 /Maxus 200**” (Avilamycin) - animal category: turkeys application for a 10-years authorization, Rapp. UK - evaluation of the dossier

## 2.- Evaluation of additive dossiers

Manganomanganic oxide (MnO Mn<sub>2</sub> O<sub>3</sub>) -AGRIMAX<sup>®</sup> ( rapporteur NW).

## 3.- Evaluation of bioprotein dossiers.

3.1 Request for authorisation of *Clorella vulgaris* under Directive 82/471/EC.

3.2 Analogue methionine: request from AVENTIS. Rapporteur F

3.3 Spent yeast cells (*Candida guilliermondii*) from the production of citric acid. Nutrigow<sup>®</sup>.Rapporteur IRL.

## 4.- Particular nutritional purposes.

Request from DK to modify the particular nutritional purpose “Reduction of the risk of milk fever”.

With reference to Article 3.1 of the internal regulations of the Standing Committee on Animal Feedingstuffs, the time of transmission of the document is cut short to 8 days.

N.B. The number of experts whose travel expenses will be reimbursed is limited to **one expert per delegation**.

Experts travelling by plane are requested to systematically order the lowest priced ticket available. If for any reason beyond their control they have to book business class a justification should be attached to the ticket.

The new regulation concerning the reimbursement of the travel and subsistence expenses as well as of the expenses incurred during the trip of foreign persons to the Commission invited as experts will be sent to you on request.

The languages for which simultaneous translation will be provided are the following:

F, D, E, I, ES, NL, P, EL, DA to F, D, E, I, ES, NL.
