Notes:

The previous tables summarise the information provided by the Member States, in monthly reports

Clinical signs at AM: animals sent for normal slaughter but found sick at ante mortem inspection

Emergency slaughter: animals subject to special emergency slaughtering procedure according to EU legislation

Fallen stock: dead-on-farm animals

Healthy slaughtered animals: healthy animals subject to normal slaughter and animals slaughtered in the context of a disease eradication campaign others than BSE but showing no clinical signs of disease

Suspects subject to laboratory examination: Animals reported as BSE clinical suspects

Eradication Measures: Birth and rearing cohorts, feed cohorts, offspring of BSE cases, animals from herds with BSE
