

# Servicio Nacional de Sanidad Agraria del Peru (SENASA) - Peru

*stakeholder group:* Competent Authority (CA)

## **1. General questions**

### 1.1 Market size and value?

<u>Novel food as total</u>	Significant
<u>Traditional food from 3rd countries (outside the EU)</u>	Very significant
<u>R&amp;D based novel foods</u>	Not significant

1.1 Specify: Productos vegetales: Lucuma, camu camu, yacon, sacha inchi, huito, stevia, araza, aguaje, unguirahui, azae, quinua, caigua, algarrobo, muña, hercampuri, mashua Productos animales Alpaca, llama, cuy,

### 1.2 Import value?

<u>Novel food as total</u>	Not significant
<u>Traditional food from 3rd countries (outside the EU)</u>	Very significant
<u>R&amp;D based novel foods</u>	Not significant

### 1.2 Specify

Productos vegetales: Lucuma, camu camu, yacon, sacha inchi, huito, stevia, araza, aguaje, unguirahui, azae, quinua, caigua, algarrobo, muña, hercampuri, mashua  
Productos animales Alpaca, llama, cuy,

1.3 Staff 0

1.4 Innovation cost 0

### 1.5 Time taken

<u>Safety assessment of novel foods</u>	Long
<u>Authorization decision on novel foods</u>	About right
<u>Authorization procedure as a whole</u>	Long

### 1.6 Costs of administrative burden

<u>Novel food as total</u>	Not applicable
<u>Traditional food from 3rd countries (outside the EU)</u>	Very significant
<u>R&amp;D based novel foods</u>	Not applicable

## **2.1 Adjusted safety assessment and management for traditional food from 3rd countries**

Opt 1: No changes 'One size fits all'

Opt 2: Adjusted safety assessment for traditional food from 3rd countries

Opt 3: Adjusted safety assessment and management for traditional food from 3rd countries

**Opt 4: No pre-market safety assessment and authorisation for traditional food from 3rd countries**

Impact on consumer rights Very beneficial

Impact on innovation and research Neutral

Impact on employment and jobs Very beneficial

2.1.5 Preference: Option 4: No pre-market safety assessment and authorisation for traditional food from 3rd countries

2.1.6 Explanation of choice: Option 4 is adequate to traditional food from Peru, since these products have a long history of safe human consumption in our country. They have a high nutritional value and are produced by farmers from poor rural areas; so the social impact of increased trade on these products is regarded quite high and might be considered along the lines of the millenium goals as to diminishing the poverty in the rural areas of developing countries. Therefore is important to facilitate the trade of traditional food from developing countries by removing unnecessary trade berriers.

## **2.2 Safety assessment and Authorization procedure?**

### **Opt 1: No changes (decentralised assessment and authorisation procedure)**

Impact on consumer rights \_\_\_\_\_ Very beneficial

Impact on innovation and research \_\_\_\_\_ Neutral

Impact on employment and jobs \_\_\_\_\_ Very beneficial

Opt 2: Centralised risk assessment and authorisation procedure

## **2.3 Authorisation decision?**

Opt 1: No changes: Authorisation linked to the applicant (only applicant able to market)

Opt 2: Generic authorisation (all companies able to market in EU and abolishment of simplified procedure)

### **Opt 3: Generic authorisation + data protection for certain foods**

Impact on consumer rights \_\_\_\_\_ Very beneficial

Impact on innovation and research \_\_\_\_\_ Neutral

Impact on employment and jobs \_\_\_\_\_ Very beneficial

Opt 4: Different types of authorisations (generic and for certain foods, applicant linked)

**2.3.5 Preference:** Option 3: Generic authorisation + data protection for certain foods

**2.3.6 Explanation of choice:** Generic authorisation is a procedure that simplify the access of traditional food to EU market.

## **2.4 Submission of application for several food uses**

### **Opt 1: No changes: Separate applications for different food uses**

Impact on consumer rights \_\_\_\_\_ Very beneficial

Impact on innovation and research \_\_\_\_\_ Neutral

Impact on employment and jobs \_\_\_\_\_ Very beneficial

### **Opt 2: One application for all new foods for different uses**

Impact on consumer rights \_\_\_\_\_ Very beneficial

Impact on innovation and research \_\_\_\_\_ Neutral

Impact on employment and jobs \_\_\_\_\_ Very beneficial

**2.4.3 Preference:** Option 2: One application for all new foods for different uses

## **2.5 Legal act**

### **2.5.1 What would be the impact of the revision for your organisation?**

Impact on consumer rights \_\_\_\_\_ Very beneficial

Impact on innovation and research \_\_\_\_\_ Neutral

Impact on employment and jobs \_\_\_\_\_ Very beneficial
