

European Union comments on

CL 2010/47-RVDF

PART C – REQUEST FOR COMMENTS

3. Proposed Amendments to the *Risk Analysis Principles applied by Codex Committee on Residues of Veterinary Drugs in Foods*

*Mixed Competence
Member States Vote*

It is important to ensure that CCRVDF covers food safety risks arising from animal feed in its specific area of work while the Task Force on Animal Feeding covers the issue in a more holistic manner. Therefore, the European Union and its Member States support the proposed amendments to the *Risk Analysis Principles Applied by the Codex Committee on Residues of Veterinary Drugs in Foods* as presented in Appendix II of REP11/RVDF.

4. Proposed Amendments to the Terms of Reference of the Codex Committee on Residues of Veterinary Drugs in Foods

*Member States Competence
Member States Vote*

CCRVDF must be able to elaborate other risk management measures than MRLs and codes of practice. This is of particular importance to address substances with no ADI and/or MRLs. Therefore, the Member States of the European Union support the proposed amendment to the Terms of Reference of CCRVDF as presented in Appendix VIII of REP11/RVDF.
