SAP SE / Plattform Industrie 4.0

Plattform Industrie 4.0 // Key Success Criteria

All relevant **stakeholders** are on board and **feel valued with their contribution**.

Bringing **industry players into the leadership** board as key stakeholders is another success criterion; **results need to be tangible** and putting it into practice only works out with corporate leaders.

Decisions are being taken in **consensus**, knowing that it takes longer initially, but it always paid out in the long run since all are on the same page.

We are an **open platform**, everybody is welcomed to contribute, we do not exclude anyone. We focus on **pre-competitive topics**.

Finally we have started **kicking off topic-specific consortia**, focusing on dedicated initiatives for implementation e.g. standards or testbeds.
