

Summary of the parallel session of 8 December

Industrial data platforms by definition cross-sectoral;
Mapping is under way, needs to be finalised;
The categories of relevant stakeholders are clear;
Presentation on the Industrial Data Space showed a possible functional model where innovation on top of data can happen;
Legal issues around data and exchange of data need attention: IDPs can technically tackle some of them;
Presentation of the Big Data PPP and H2020 calls: iSpaces and Lighthouses very relevant to WG2;
Scale is important to attractiveness of IDPs;
Need to examine the role of Digital Innovation Hubs.
