Strategic Framework of the EIP on AHA

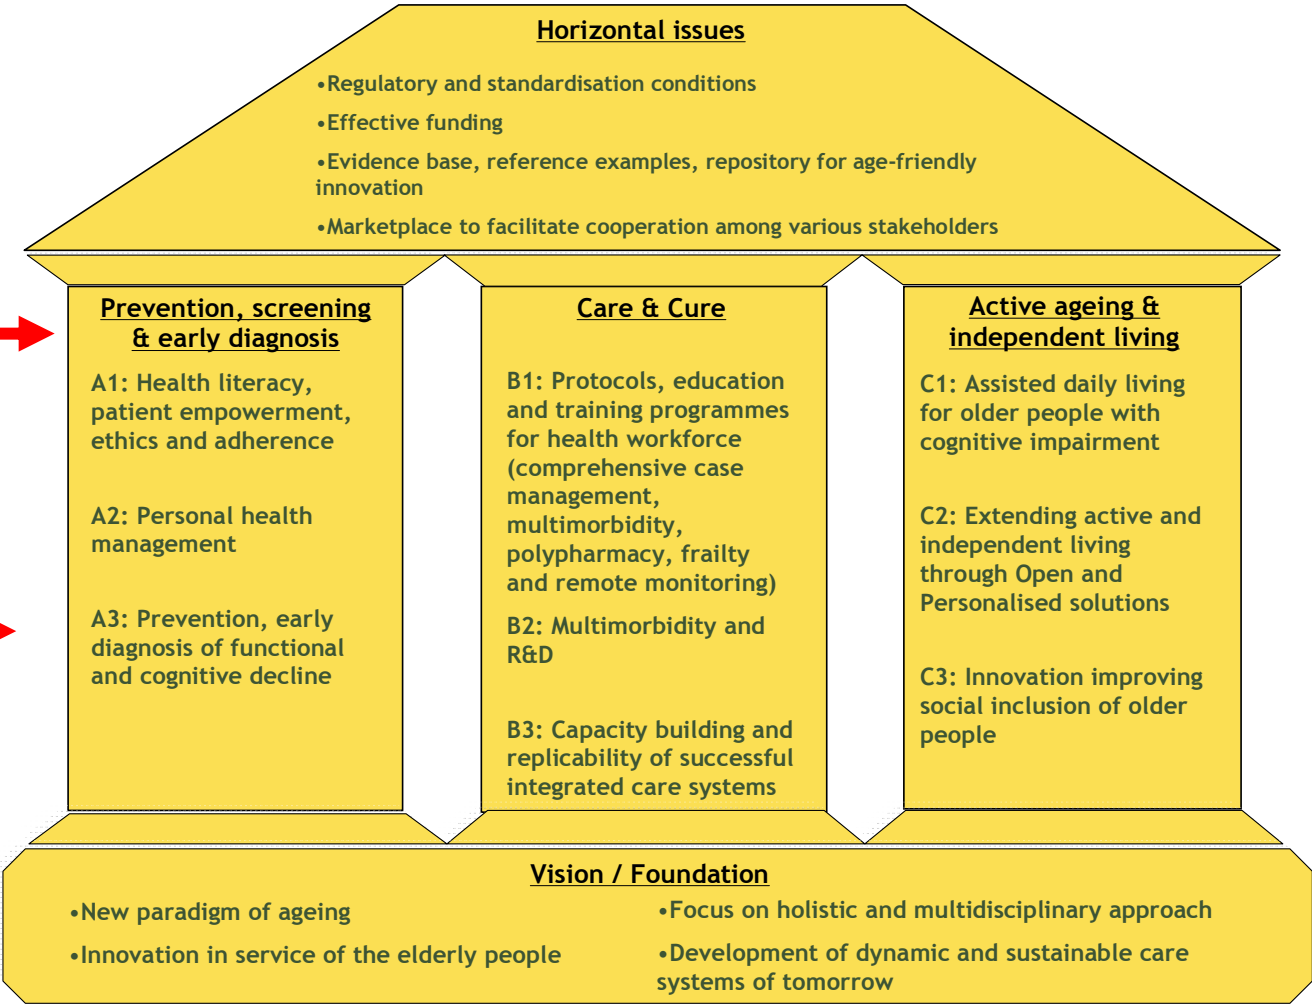

The three EAHC Actions support ...

... the implementation of the 12 Priority Areas of Work in the SIP

(a) Supporting change of care delivery towards integrated care and chronic disease management

(b) Partnering for change

(c) Supporting older people's health by maximising resources

EACH Actions

Supporting change of care delivery towards integrated care and chronic disease management

- (a) patient-centred coordinated integrated care, based on innovative business models and technologies, focusing on the management of chronic diseases.
 - reduce long-term disability and frailty of patients with multiple chronic conditions,
 - reduce unnecessary and avoidable hospitalisation.
- (b) transfer of knowledge related to implementation

Partnering for change

Stakeholder cooperation, for the development of

- (a) new business models, in particular managing multiple chronic conditions;
- (b) new care pathways along the continuum of care;
- (c) guidelines based on new solutions/business models;
- (d) training modules for care providers which reflect these new solutions/business models;
- (e) guidelines for informal care provision; and
- (f) support for related public procurement modernisation.

Supporting older people's health

Maximise the impact of resources promoting the health of older people, through

- (a) better collaboration and coordination, e.g. support and dissemination of models of good/best practice to promote the health of ageing populations; strengthening data systems;
- (b) capacity building, e.g. development of health literacy programmes; gerontology training;
- (c) preventing the onset of frailty; and
- (d) support to health policies.

The three
EAHC Actions support

...the SIP Priority Actions

**Prescription and adherence
action at regional level**

**Personalised health
management, starting with a falls
prevention Initiative**

**Prevention of functional decline
and frailty**

**Replicating and tutoring
integrated care for chronic
diseases, incl. remote
monitoring at regional level**

**(c) Supporting
older people's
health**

**(b) Partnering
for change**

**(a) Supporting change of care
delivery towards integrated care
and chronic disease management**
