**Subject:**

Dear Sirs,

We are of the opinion that Modern Asclepieions can be effective and efficient vehicles for promoting and delivering Health services (in a wider context) in EU countries and countries that are destinations for EU citizens.

Please consult the document entitled 'Guidelines for Modern Asclepieions (August 2006)' which can be retrieved from the WSIS/Stocktaking web site at <http://www.itu.int/wsis/stocktaking/scripts/documents.asp?project=1101457213&lang=en> or from our Modern Asclepieions site at <http://asclepieion.mpl.uoa.gr/parko/enchoose%20xx.htm> (top of the page).

We are available for further consultations and information provision. Currently we are working on the Modern Asclepieions Portal (in Greek).

With kind regards,

Dimitrios Sotiriou  
Associate Professor of Medical Physics  
School of Medicine, University of Athens
